WHEN I LEARN  
I MAY BECOME A

## Discoverer . . .

*Discovery comes in the form  
of a need.  
Your needs discovered  
Are small rays of light in  
your mind.*

We look to nature to find ourselves, so dazzled by the search of life. Throughout experiments we continuously learn as the quest for knowledge develops. Let it be said that we learn not only the things that are constantly before us, but also we discover the things that have before gone unnoticed.

## Lover

*Who can define Love?  
Not I nor any old wise man.  
The only ones to define Love  
Are the two people in love.*

Love has many faces and her expressions vary. Whether we find it in a couple's carefree laughter or the cuddling of a pet, love constantly surrounds and touches the lives of each of us.

WHEN I LEARN  
I MAY BECOME A

## Mender . . .

*Mending the heart when it is broken,  
And mending the world when it is  
splitting—  
Are done in the image of Him.*

Menders of the "now" generation want to make the world a better place to live. We fix the material things and attempt to mend and improve the moral aspects of life while continuing to learn.

## Bender

*Bend your mind.  
Bend it into memories of people  
and things.  
Bend until all is clear.*

Many people are asked to bend their values or themselves, and often find the change both pleasing and desirable. We must bend our position in life to include the rest of the world, yet at the same time never become so caught up in the merry-go-round that we become all "bent out of shape".

WHEN I LEARN  
I MAY BECOME A

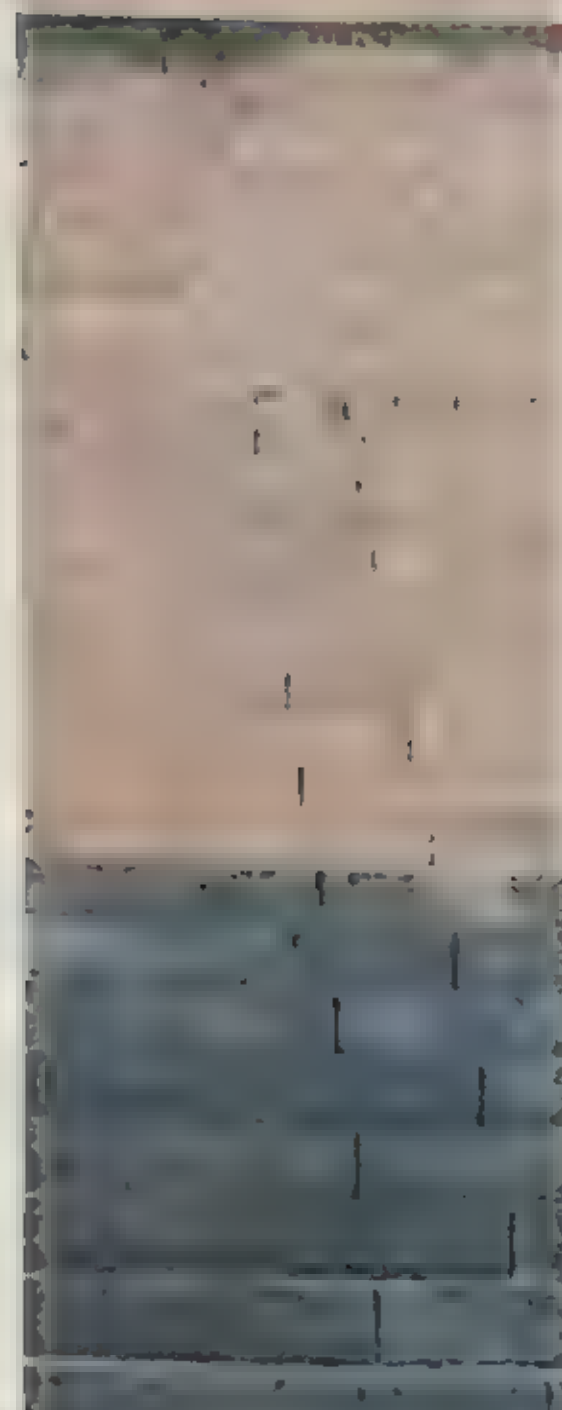

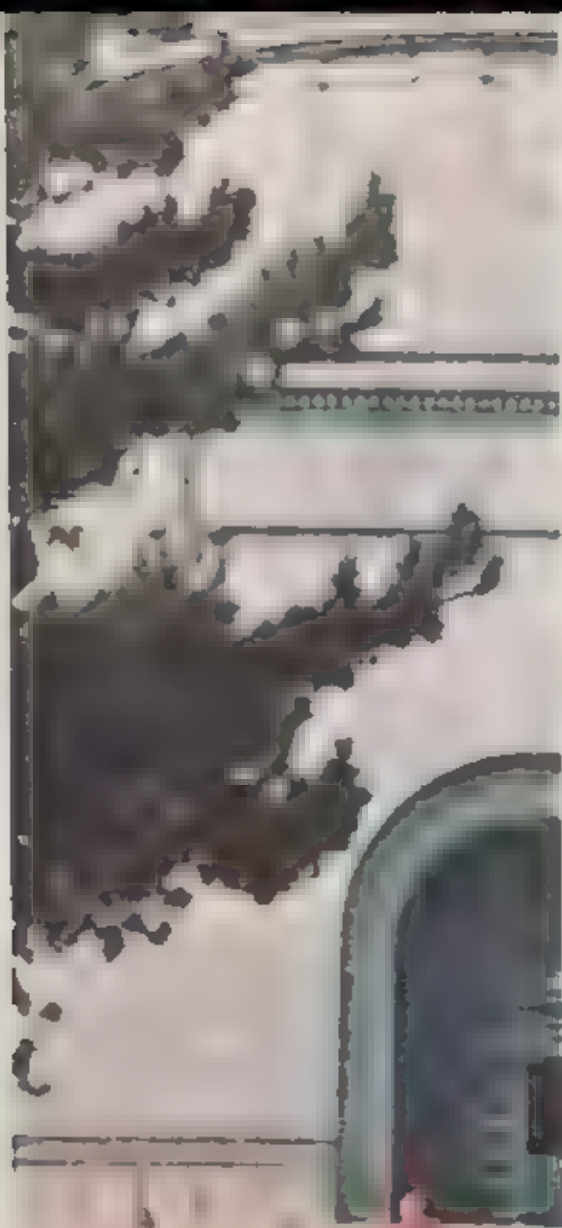

## Counter . . .

*A counter and collector of friends  
is far from wise.  
Yet being a friend is everyone's  
wealth.*

Day after day we must face a world of facts, figures, and monetary symbols. We count the number of days until Christmas, we count money, we count the minutes until splashdown. When do we count our blessings? How many times do we realize that people are depending on us just as we are counting on them? A pessimist keeps constant tabs on the bad things in life. Let us be optimistic and count the many ways in which we may find happiness in life.

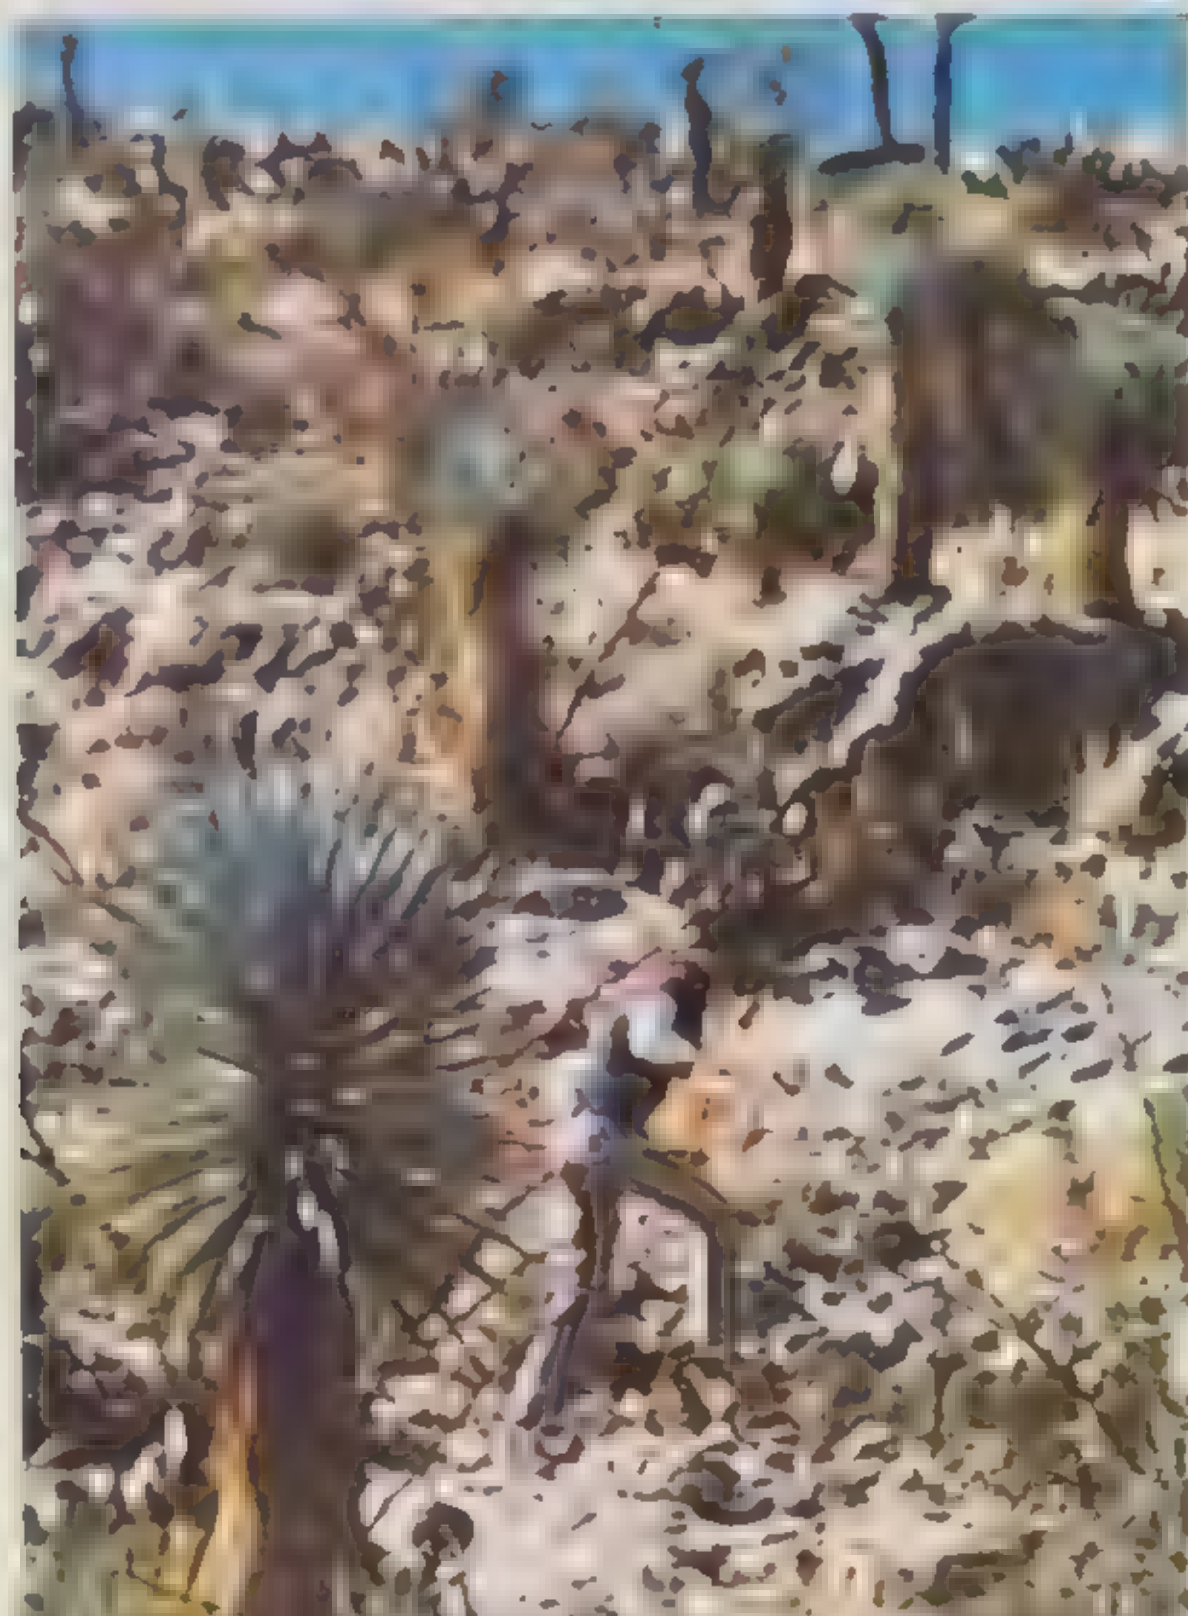

## Surmounter

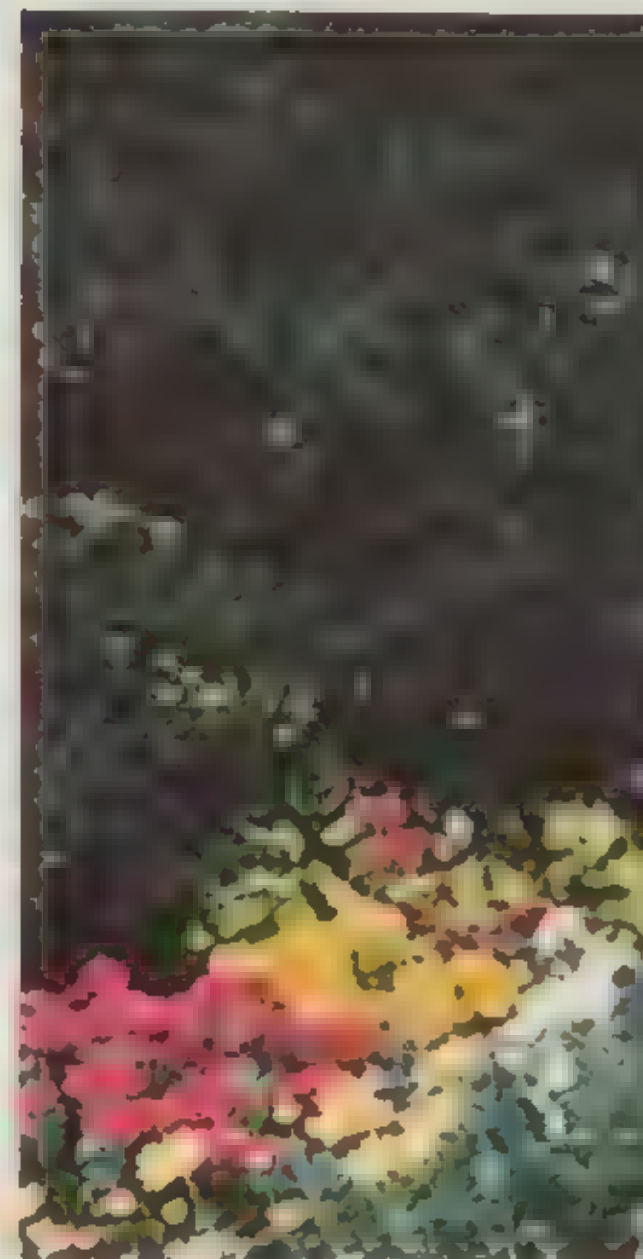

I have also been thinking about the  
 situation in the world and the  
 fact that if success is the only goal  
 in life, then the only way to achieve it  
 is by being the best at what you do.

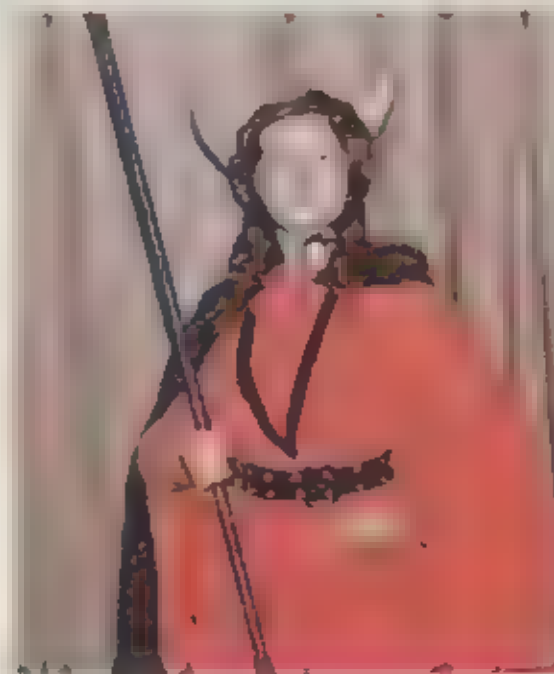

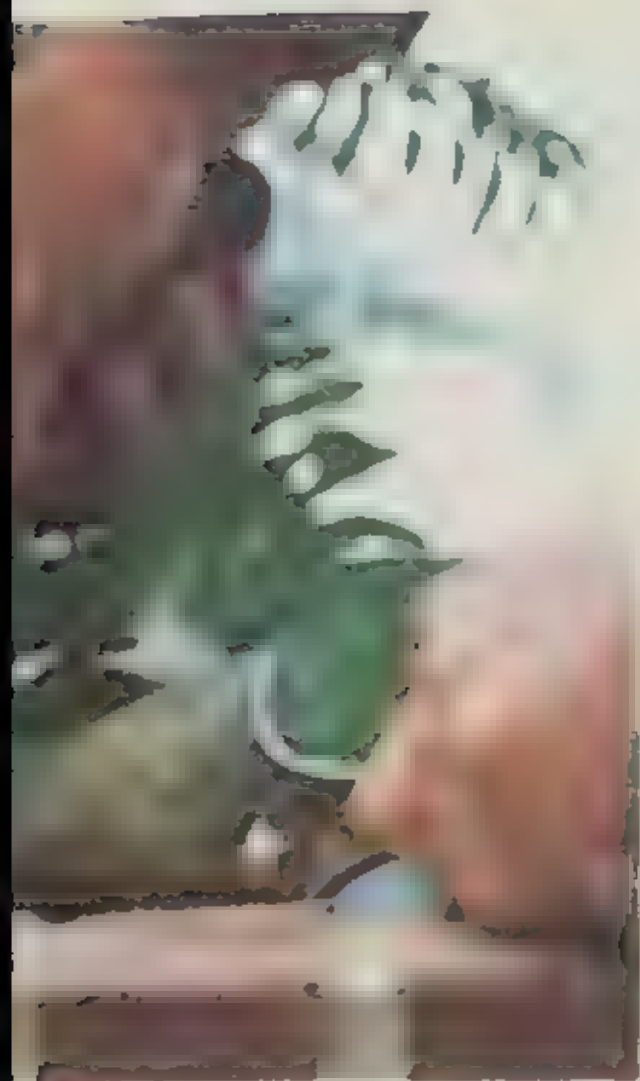

WHEN I LEARN  
I MAY BECOME A

Leader . . .

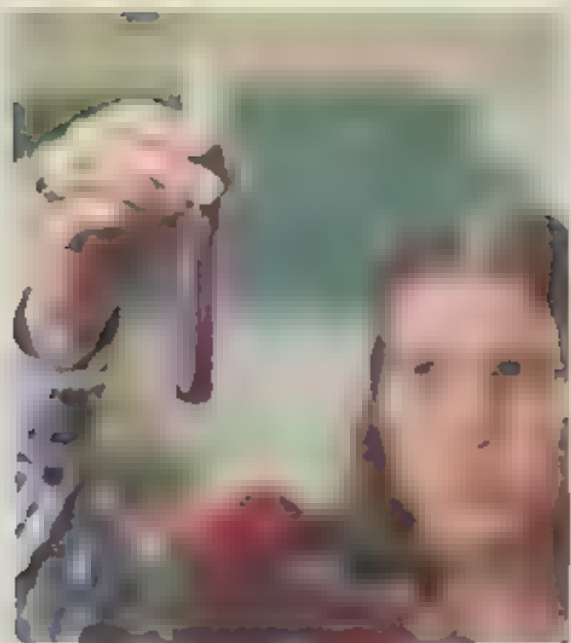

## Seeder

The Seeder is a person who is responsible for the distribution of seeds. They are often found in the fields, where they are responsible for ensuring that the seeds are planted in the correct locations. The Seeder is a vital role in the agricultural process, and they are often respected and valued by the community.

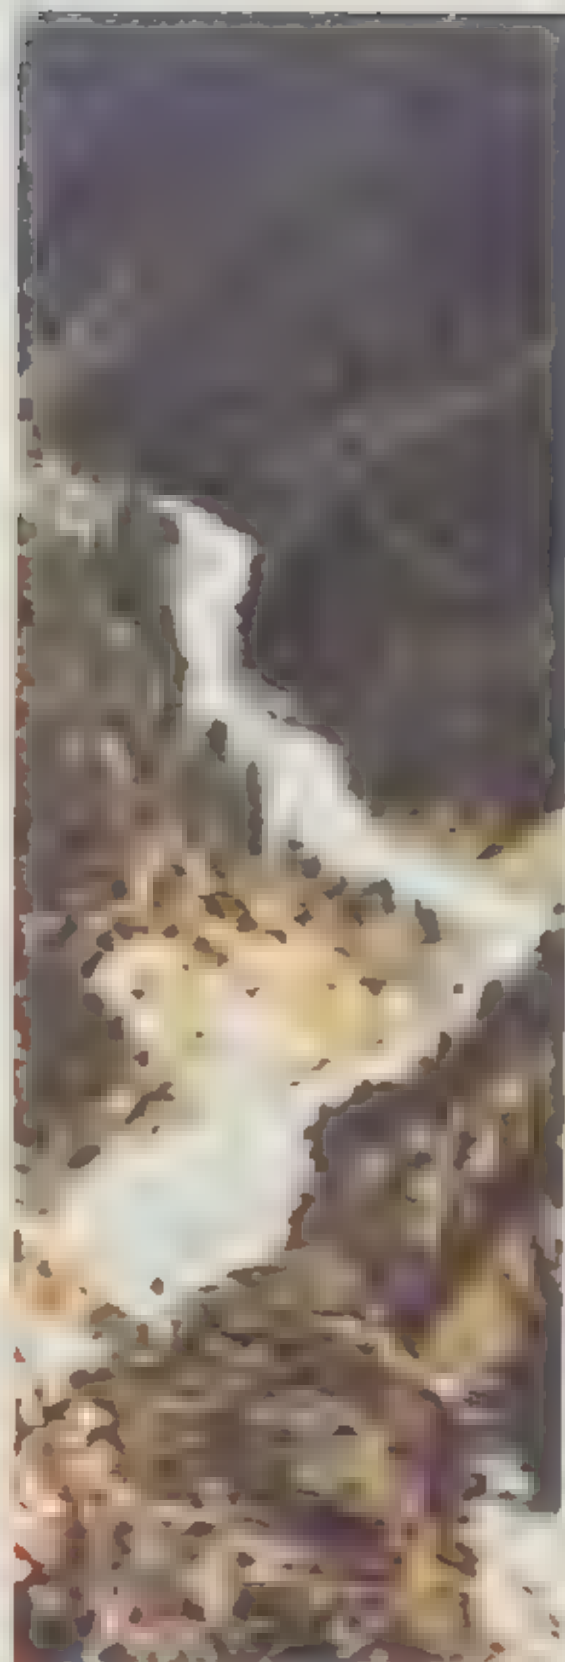

WHEN I LEARN  
I MAY BECOME A

Tester . . .

## *Dissector*

1

It's over with the great cut, the setting and open for marks. We at the same time save our interests and take things apart in order to get more knowledge to benefit from through practical ways. We are something called as 'I do's'. We just as we learn, we stop.

ACADEMICS

## New Additions Improve Music

The additions of three uniforms, a stereo, and a multiple-percussion set are highlights in the Music Department. Two of the percussion instruments, composed of two drums, the third is a timbale, consisting of three drums.

The choirs had their first performance in November, entitled "A Touch of Autumn", which featured the singing of the Sophomore Mixed Chorus, A Cappella choir, and the Hi-Lows. The orchestra, under the direction of Miss Durato, also participated in musical shows.

## Changes Make Classes Interesting

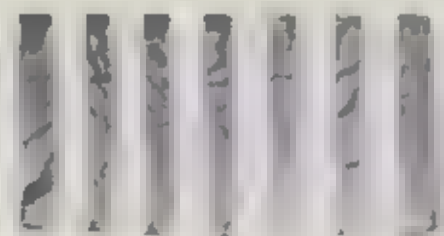

Dr. Robert Catzner was the first visiting poet to speak at Hoover High. Senior Poetry students selected him from a list submitted to the Ohio Poetry Association. By studying the poems and hearing the speaker, students arrived at a better understanding of poetry.

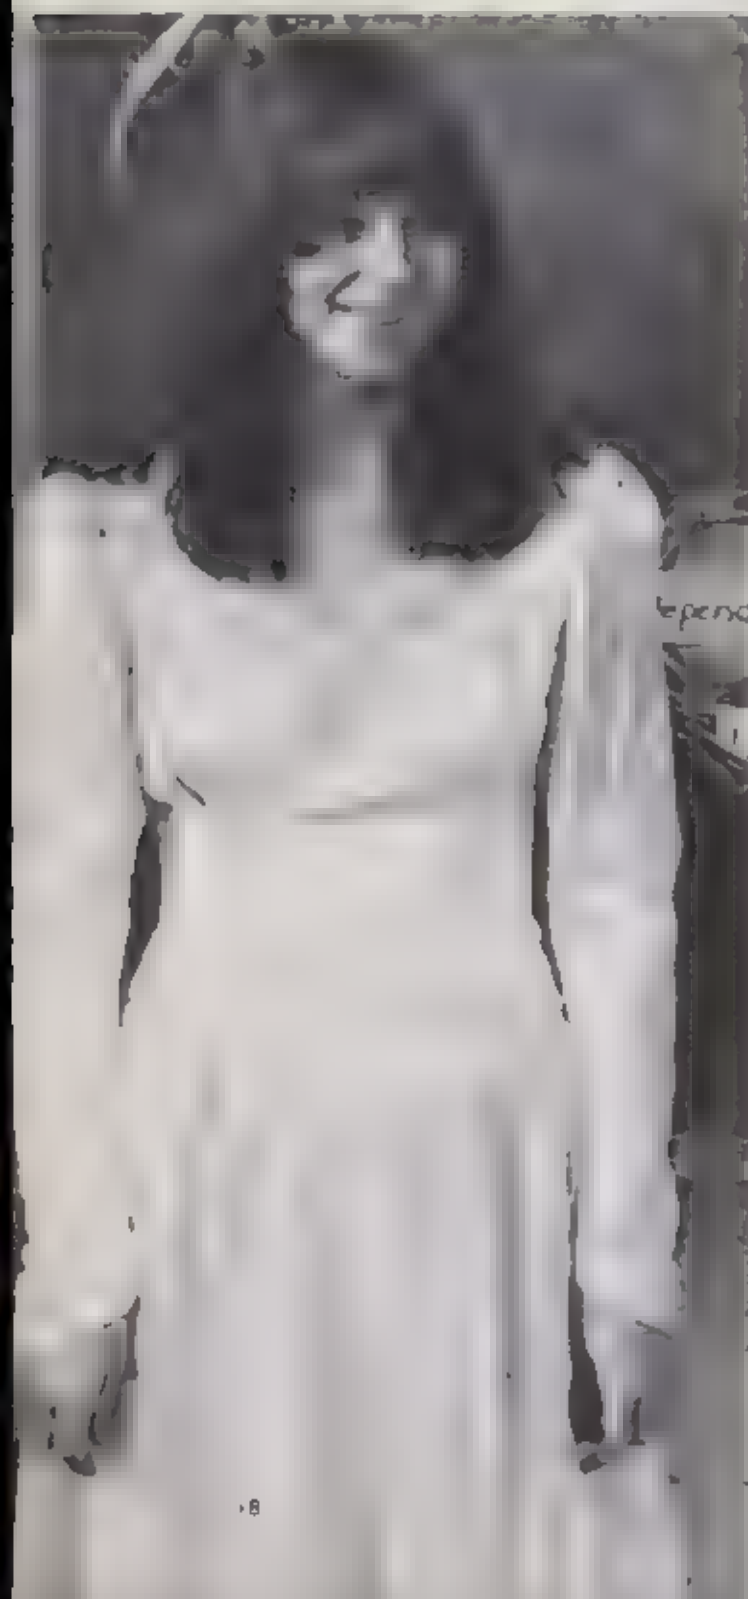

Another innovative project was the production of "The Unfinished Breakfast" a German language project.

For Mr. Arthur's English class. The entire production was written, produced, and directed by students.

Mrs. Ream is pleased that the German III and IV classes are separate for the first time. She feels that this is to the benefit of the students.

Mr. Ream also said, "As the language teachers are pleased with the increased enrollment in higher levels."

## Vo Ed Classes Build Street Car

The Industrial Arts classes combined efforts this year to help build a car in class. The designing was done by the vocational drafting classes, and the metal and machine shops did the actual building. In mid November, the work was begun to combine the better parts of a Volkswagen and a Corvair. The car was to be built to make it legal for street use. Under the supervision of Mr. Schoulty and Mr. McCauley, the classes learned to appreciate working together.

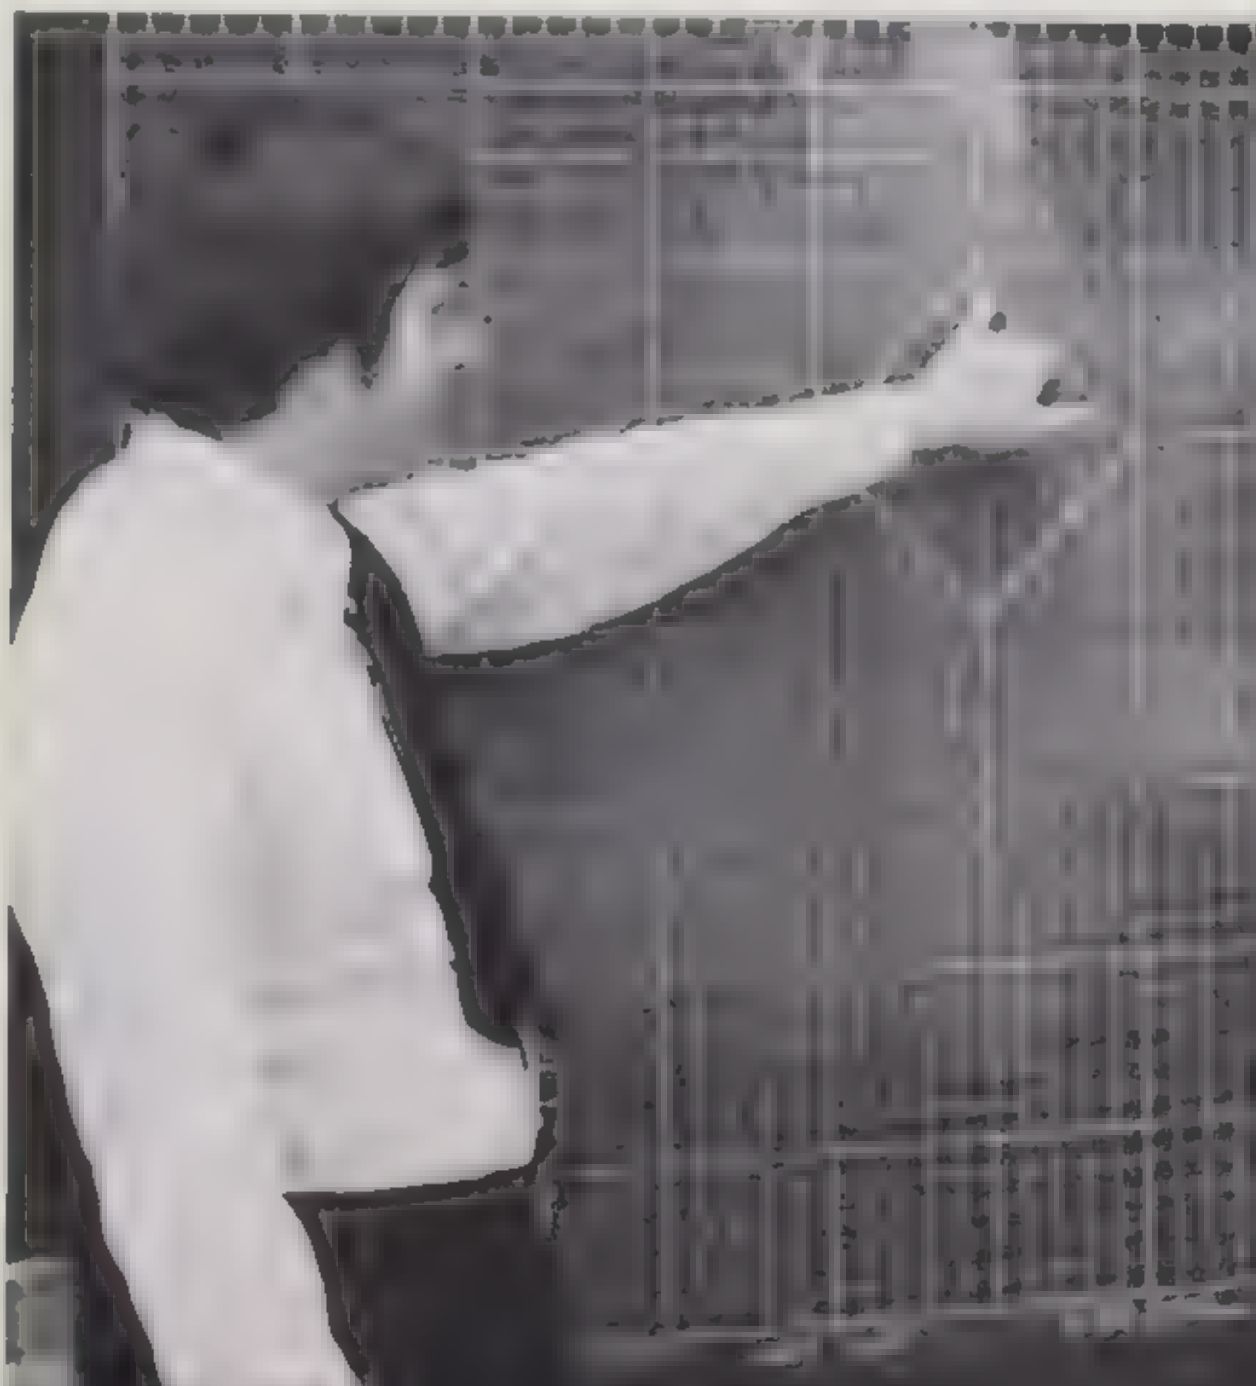

For more information on the car building project, contact Mr. Schoulty at the Industrial Arts Department.

## Cartoons, Computers Add Variety

Mr. Palmer expressed enthusiasm for a new assignment he has introduced to his Art IV classes. The new feature requires each of the students to develop an original animated cartoon, which involves creating unique characters, composing a script, and producing and directing the film. The assignment is designed to provide the students with a better understanding of, and experience in working with film-making

technology. Mr. Palmer has also introduced a new course, Math Senior Course. This course uses computer technology to make tedious computer work more fun by students. The Math Senior Course was introduced to provide students with topics not covered in Senior Math.

# Ecology, Equipment Aid Science

At the University of California, Berkeley, a group of scientists are working on a project that will help to improve the lives of people in the developing world. The project is called the "Ecology, Equipment Aid Science" project. It is a joint effort between the University of California, Berkeley, and the University of the Philippines, Manila. The project is headed by Dr. Robert H. Whittaker, a professor of ecology at the University of California, Berkeley. Dr. Whittaker is a leading expert on the ecology of tropical forests. He has spent many years in the Philippines, studying the ecology of the country's forests. The project is a response to the need for scientific research in the Philippines. The Philippines is a developing country with a large population. It has a rich natural resource base, but it is facing many problems. One of the major problems is the loss of its forests. The forests are being cleared at a rapid rate for agriculture and other uses. This is causing a loss of biodiversity and a threat to the country's ecological balance. The project is designed to help the Philippines by providing scientific research and equipment. It will help to improve the country's understanding of its ecology and to develop better management practices for its forests. The project is a long-term effort that will continue for many years. It is a testament to the power of international cooperation in science and the importance of protecting our natural resources.

## "Course of Study Depends on U.S."

The government classes change a little every year. The 1973-74 school year found these classes discussing the government's position in the energy crisis and foreign affairs with Russia and China. Mr. Clarke stated, "A large part of the course of study depends on the changing scene in America."

In addition to a new text for some of the government classes, *Structure and Factors of Our Government*, the social studies classes used numerous new videotapes from related television programs.

For example, students have seen a tape of the President's address to Congress on the energy crisis. After studying the role of the American consumer, Bill Hughes gave an energy lesson. He stated, "Most of the energy used in our lives is from the North."

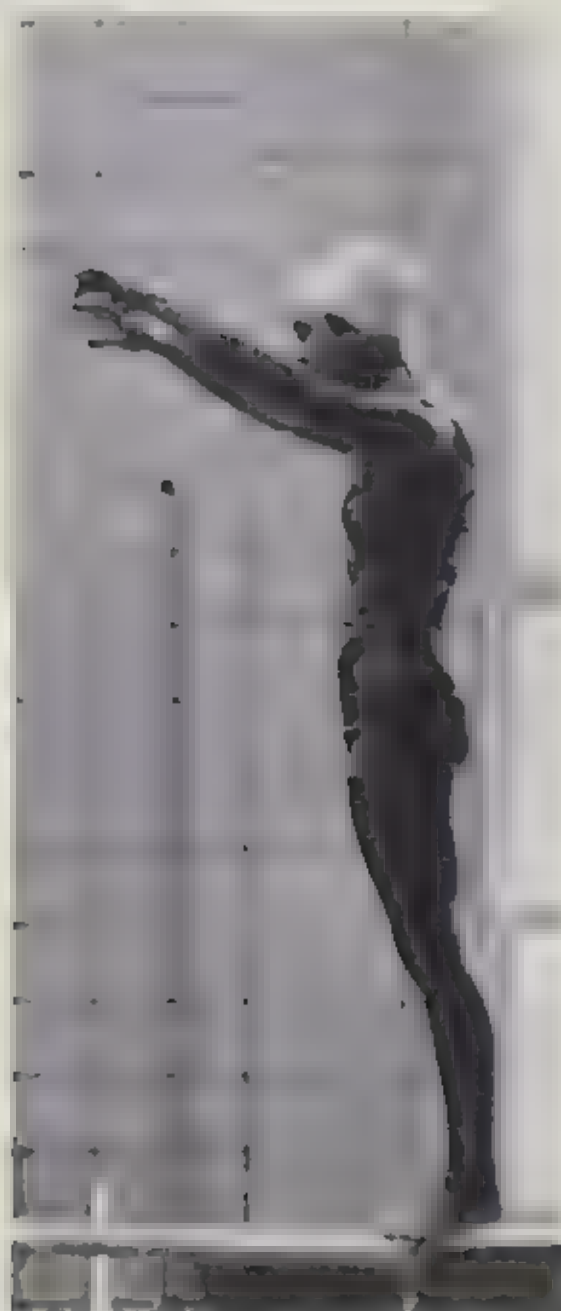

## Individuality Is Stressed

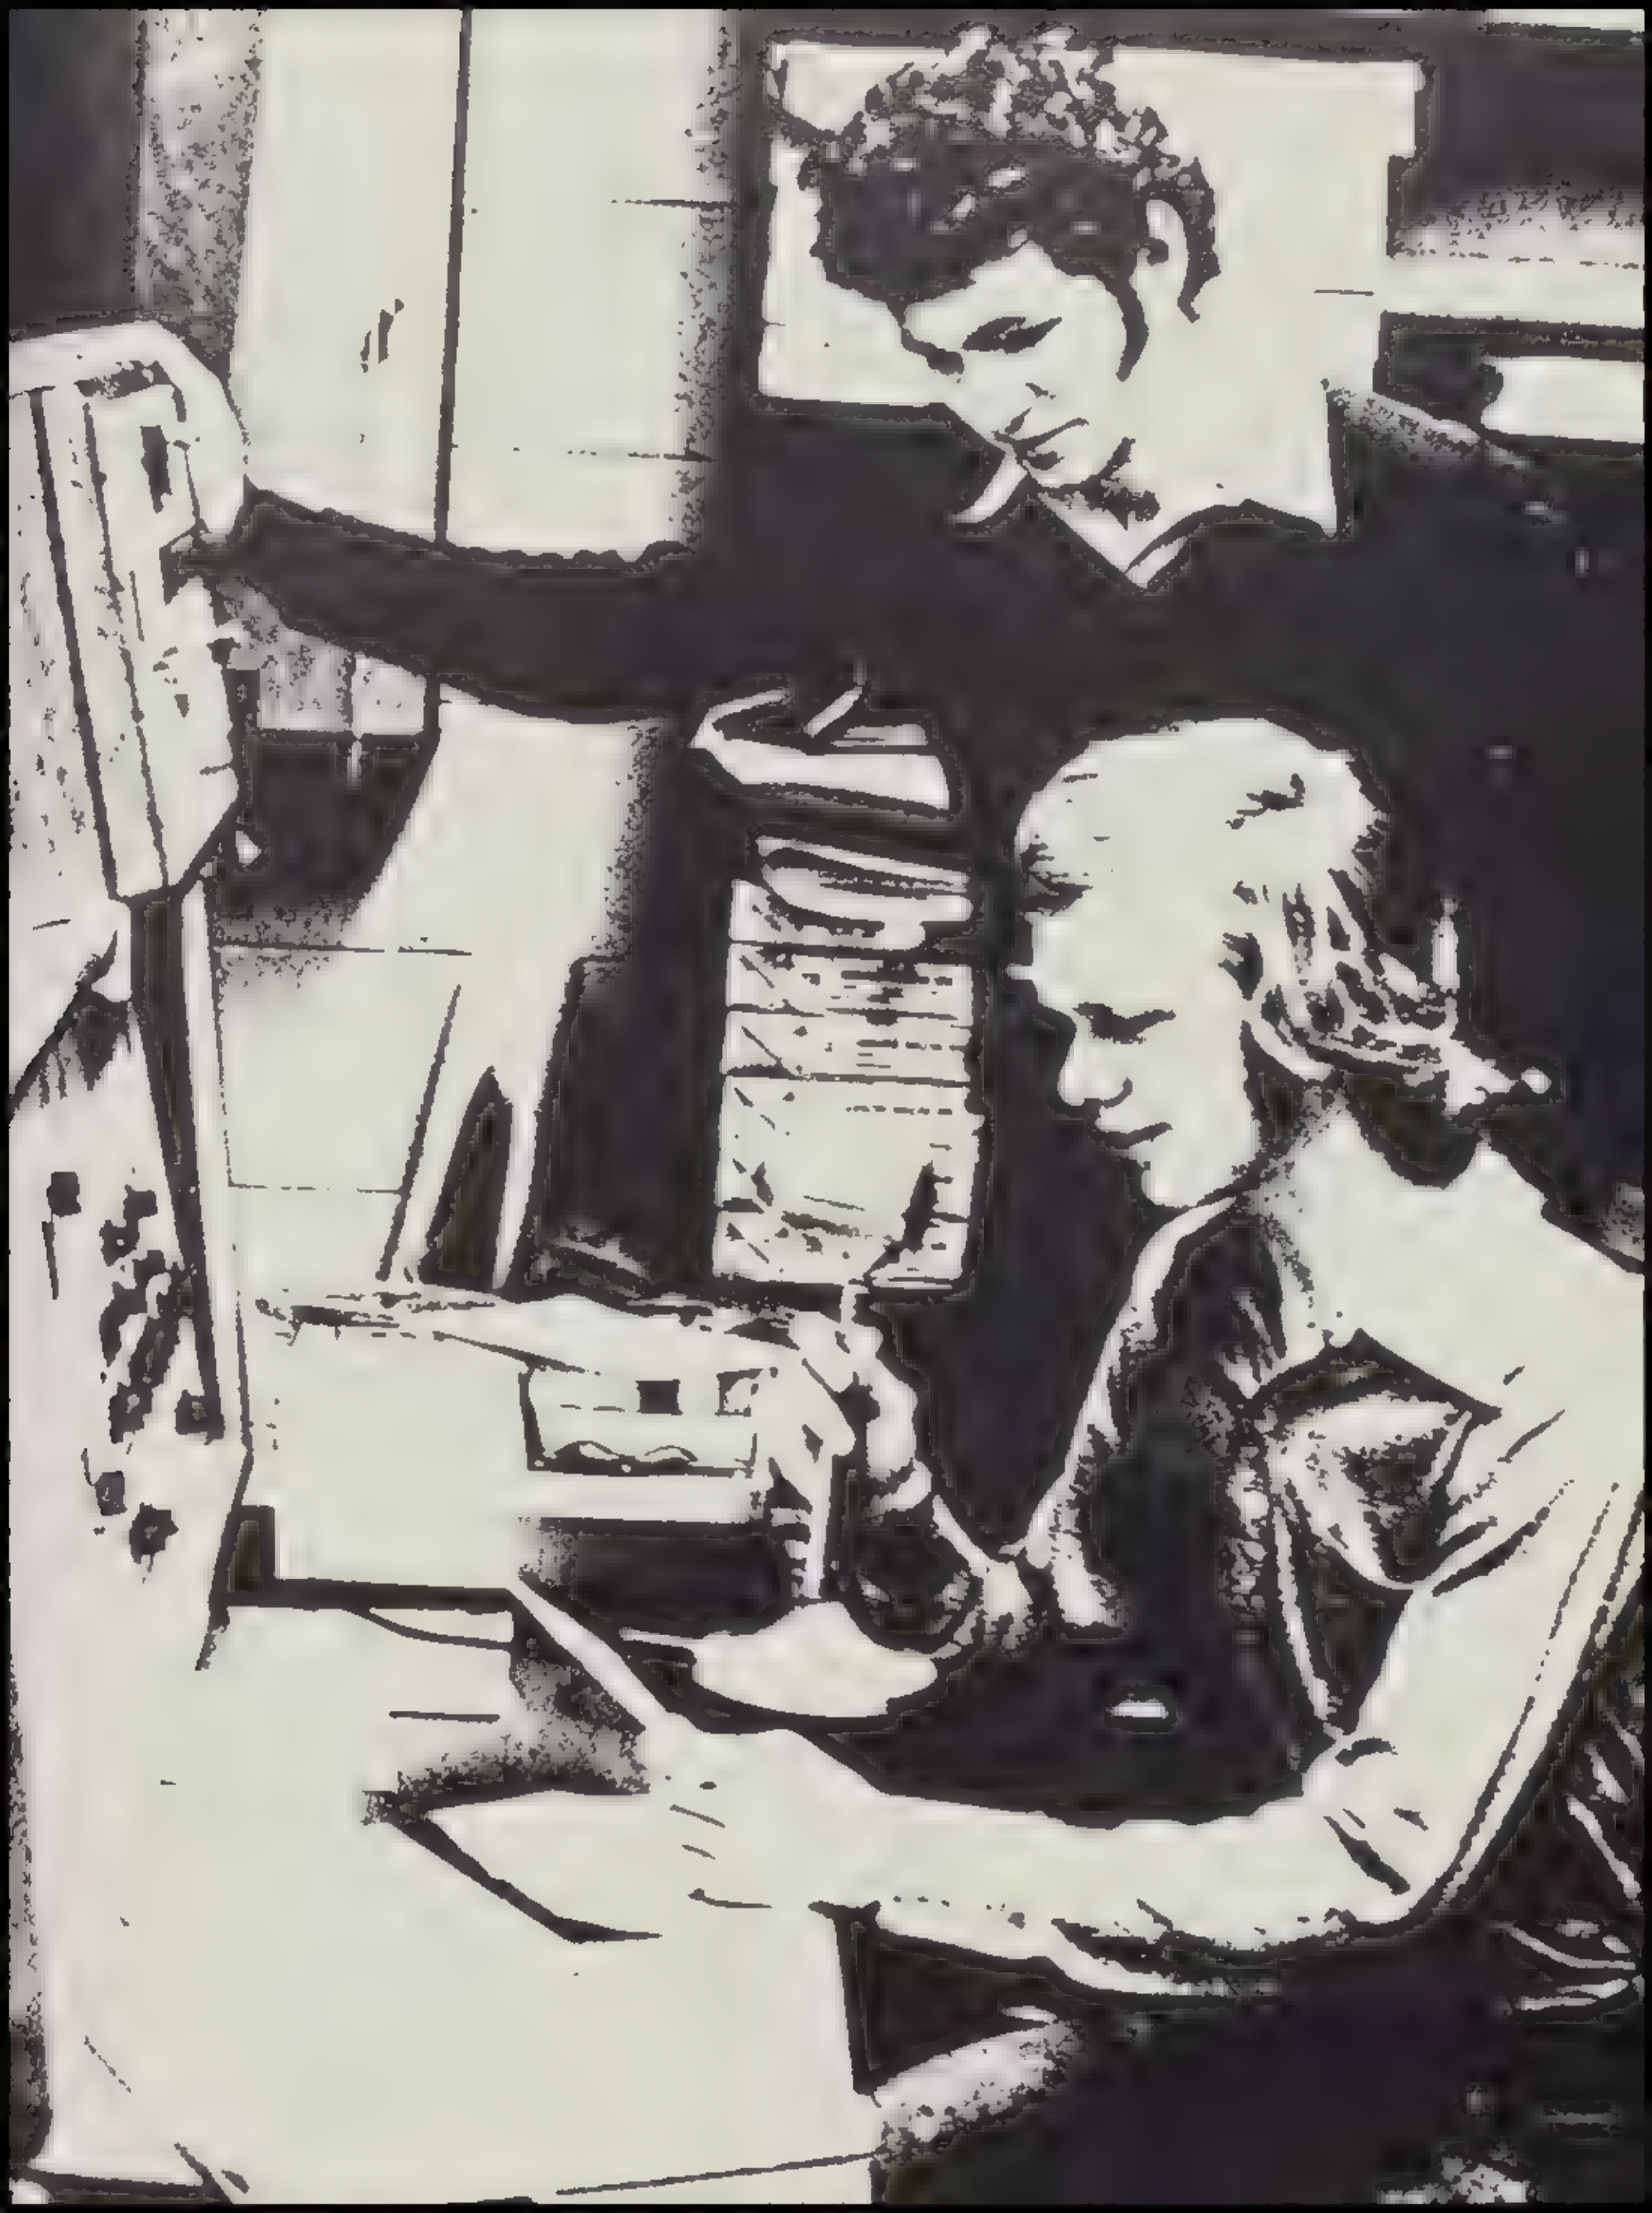

The physical education program is keyed to developing the totality of the individual through promotion of physical fitness, social skills, and a sense of identity. In the girls' program, bowling has been added to the regular curriculum, which has made necessary the addition of new regulation equipment. No additions have been made to the boys' program, as Mr. Hertler feels his is a well-rounded program. His primary concern is that the boys enjoy physical activity.

*Far left: Mike Maurer anxiously attempts to perfect his driving skills on the simulator. Left: Jeff Manning perfects her backdive in Mr. Morrison's swimming class.*

STUDENT LIFE

## '73 Prom Hits in Hobbit Land

1973 Prom activities had the theme of "Hobbit Land" and was titled "Once Upon a Time." On April fourteenth, 144 couples attended the prom and danced to the music of "The Continental Four." The formality of the prom was de-emphasized to make it possible for more students to attend.

A live band, swimming, movies and refreshments were a few of the attractions at the After-Prom. 543 students were on hand for the party held at the Canton Jewish Center.

Foot-stomping Fun Will Remain a Hoedown

## Memory of Country-Western Homecoming

Hoover High went Country Western for this year's Homecoming Dance. There was a barnyard sounds contest in which Jim Wrigley walked away with the prize (a rubber chicken) for his impersonation of a chicken, pigs after dinner, pigs kissing, and a Canton South Wildcat.

Formal entertainment was provided by the group "One Way Up", and Florie Dorie Girls, Joan Gulling, Paula Sogan, Joan Taylor, Pam Nioura, Heidi Davis, Linda Lockler, and Laurie Yost. Also entertaining were Ruby Mae (Nancy) Anderson, who sang "Embrace Me" and "Delta Dawn", and Bobby Harmelink, who sang "You Done Stomped on My Heart."

Three hundred students attended the Student Council sponsored dance. Art students, under the direction of Mr. Palmer, transformed the gym into a saloon.

# Enchantment Felt By Spring Royalty

"The Old West," theme of the Band prom, had saloon decorations and mock gambling with paper money.

A novel feature of this year's Spring Sing was the addition of speciality acts by members of the choirs. Dave Bridenstine provided the music for the dance which followed.

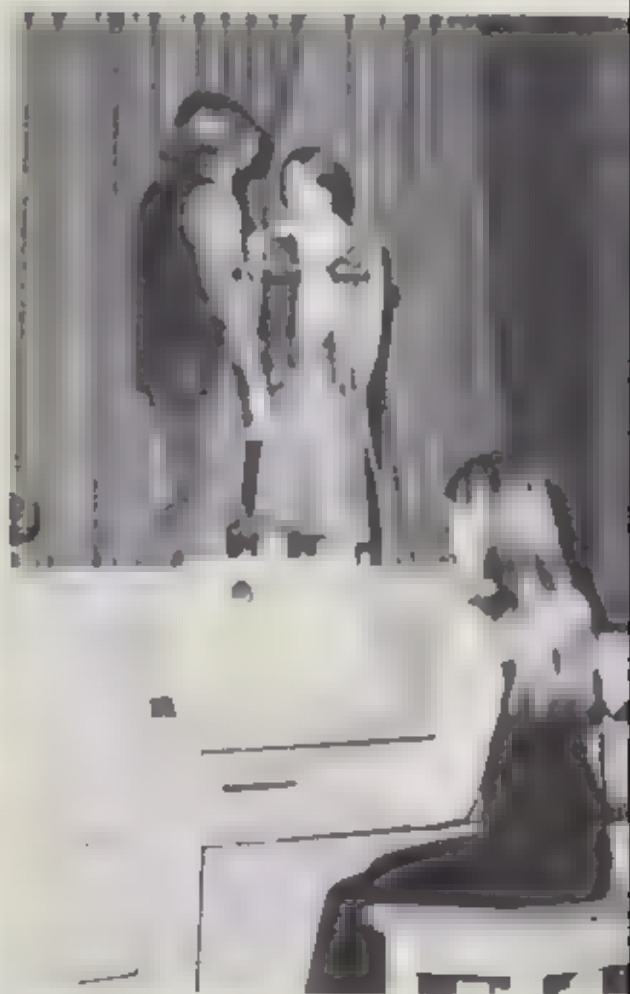

The 1973 Track Queen and Co-Meet presented awards at the North Carolina Invitational Track Meet.

## Choirs Sing Out

Irving Berlin's musical *I Want to Get You* was brought to Hoover March 29 and 30, 1973 by the A'Capella Choir. Under the production and direction of Mr. Howes, the choir recaptured the old west with Brian Walters and Debbie Davidson in the leading roles. Mr. Howes was thoroughly pleased with the production and added that the enthusiasm had been carried over into more recent productions. The highlight of the fall season, *A Touch of Autumn*, featured all the choirs. Sophomores Tina Zirps and Dave Mullins sang solo parts for the first time and Mr. Howes commented that they handled it very well, regardless of Tina's "shaking legs." When asked his opinion of the choir, Mr. Howes said, "They have been excited all year; the kids really are anxious to work."

# Students Learn About Government And Australia

However, the delegates to Boys and Girls State this year state delegating teachers to participate in mock government for students by running for state and local office. The delegates campaigned for winning the position by west Girls State was held at Capital University and Boys State was held at Ashland College.

In Australia there are only two seasons, summer and winter. George Barnes was surprised to see snow on his arrival in North America in January 1973. George comments, "This is a nice place to visit but I wouldn't want to live here."

## Students Become Actively Involved

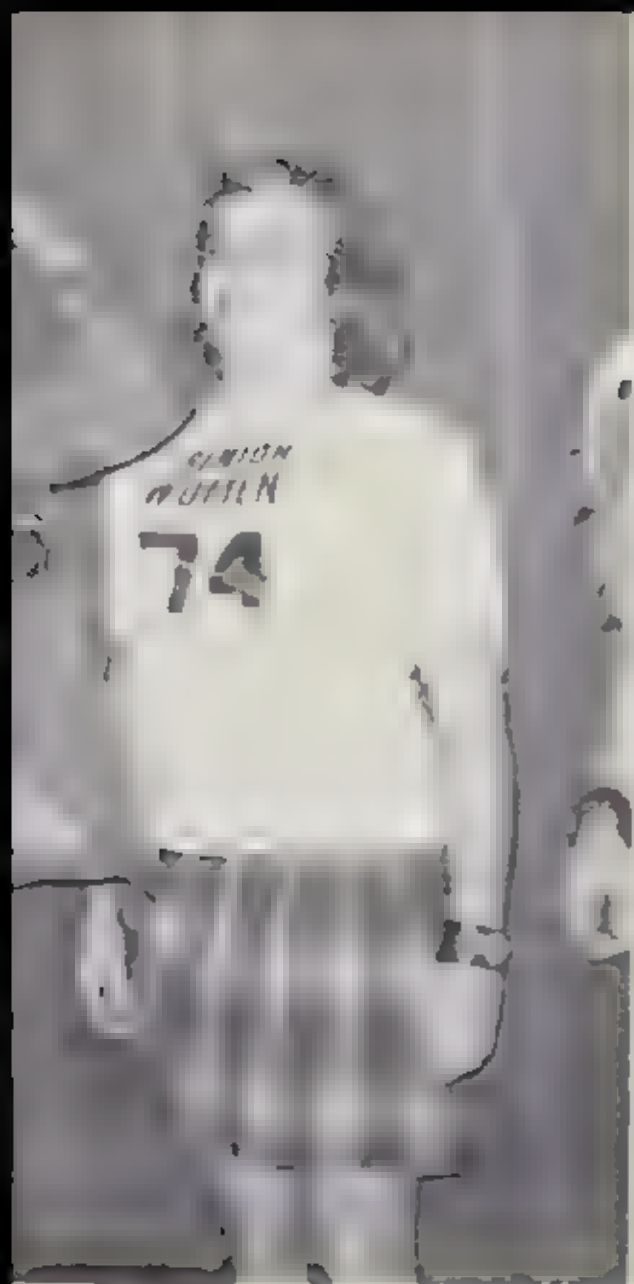

Through increased Student Council activity and increased student involvement shown in the program of assemblies, the favorable reaction aroused. While most assemblies were presented by the students, Mr. Shultz provided an excellent speech of encouragement. This particular presentation provoked various reactions, but the majority of students' sentiments were favorable.

Both the Reserve and the cheerleaders seemed to enjoy the school spirit, as reflected in their participation in the pep rallies and the assemblies. Some of the more memorable assemblies were the Homecoming Pep Rally, in which the cheerleaders went "Hillbilly" and the Carter South Rally, in which they sang their own version of "One Tin Soldier."

The following table shows the results of the Student Council's efforts in the various assemblies. The table is organized into columns for the different assemblies and rows for the various activities. The data is as follows:

Assembly	Activity	Results
Homecoming Pep Rally	Assembly	100%
	Assembly	100%
Carter South Rally	Assembly	100%
	Assembly	100%

## Cheerleaders Take Top Honors at Numerous Contests

This year's varsity cheerleaders have won their share of awards. After capturing first place when attending *Camps All American* last summer, they placed first in the Kent Stark Cheerleading Competition. In national competition last summer, the team came away with third place and an individual competition Joan Granger placed first and was named "Miss Teen Age Cheerleader." In addition, Lee Taylor placed fourth, and Dean Barry received an honorable mention.

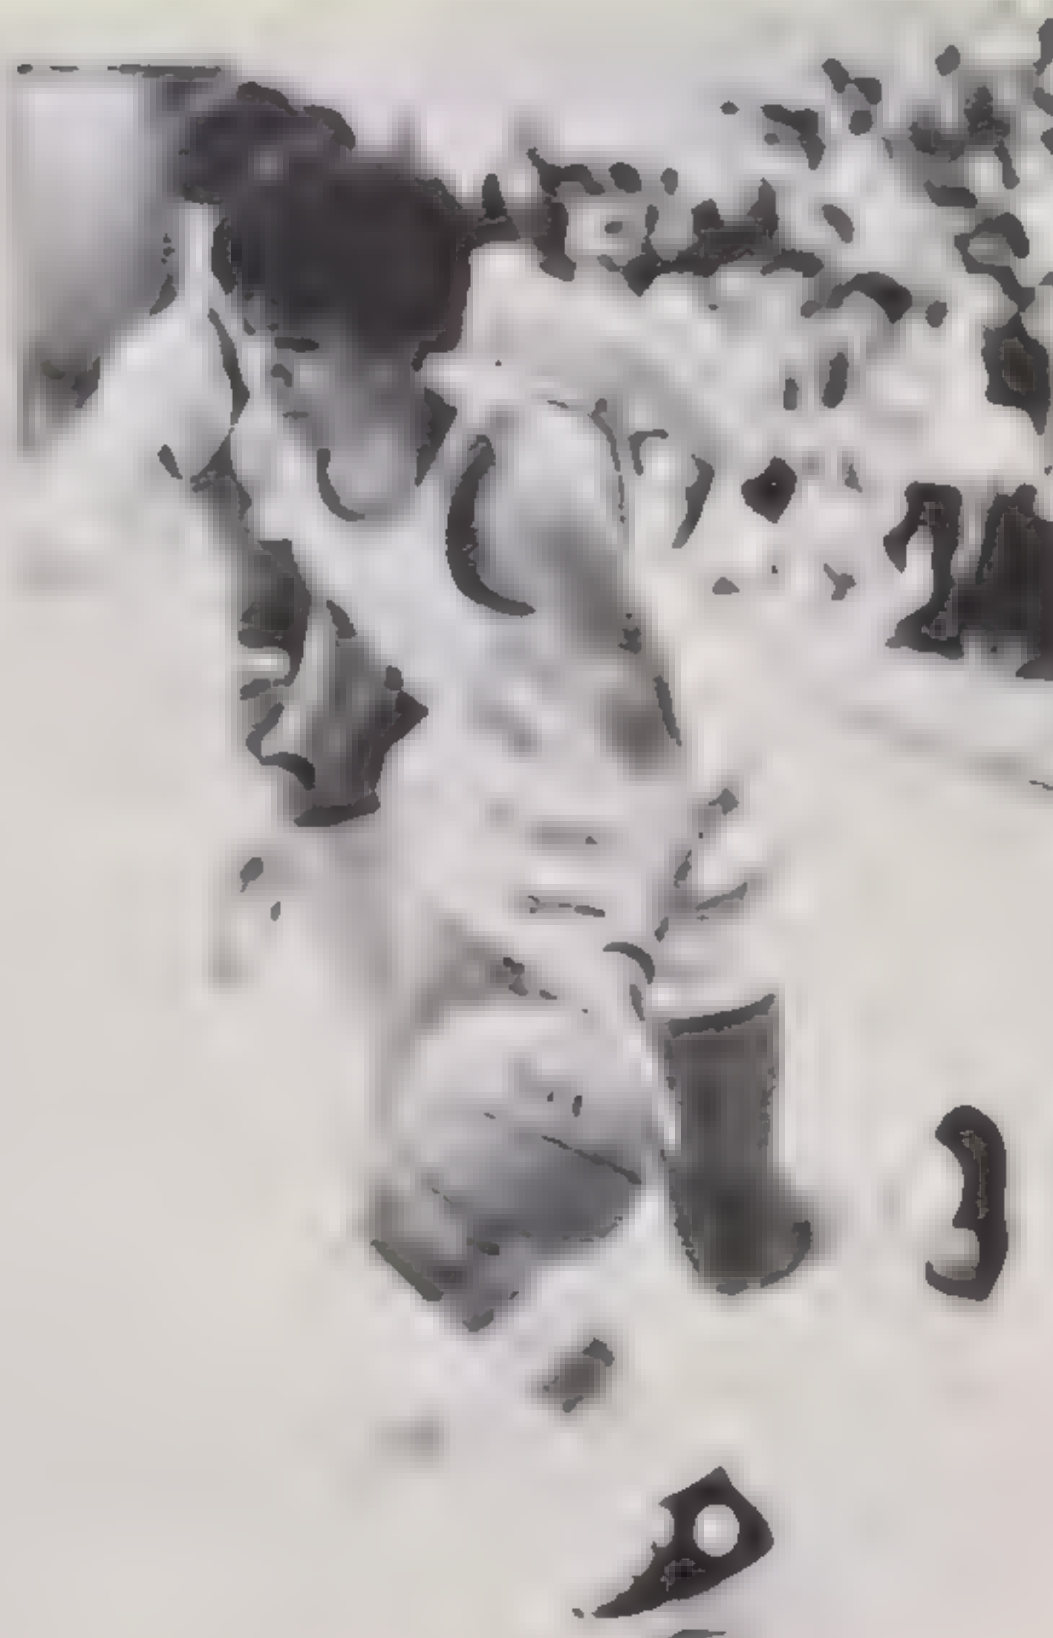

Also, the varsity cheerleaders had the honor of being named "Honor Cheerleaders" by the community. During the year, they performed at numerous contests. At the Kent Stark Cheerleading Competition, they placed first. In the national competition, they placed third. The cheerleaders were also named "Honor Cheerleaders" by the community. During the year, they performed at numerous contests. At the Kent Stark Cheerleading Competition, they placed first. In the national competition, they placed third. ## Staff Toils Hard For Great Book

Working with the theme "Learning and Becoming" the annual staff gave their time to produce the 1974 Annual. The forty-eight member staff was run by Editor-in-Chief John Walker who helped the other staff members solve their many problems. As the annual staff advisor Mr. Walker contributed much time, advice, and numerous pounds of paper, although some staff members felt that his only purpose was to reject their copy. Eight pages were added this year including two in full color. Also added was a new telephoto lens to help the photographers in their shooting.

## Yearbook Succeeds

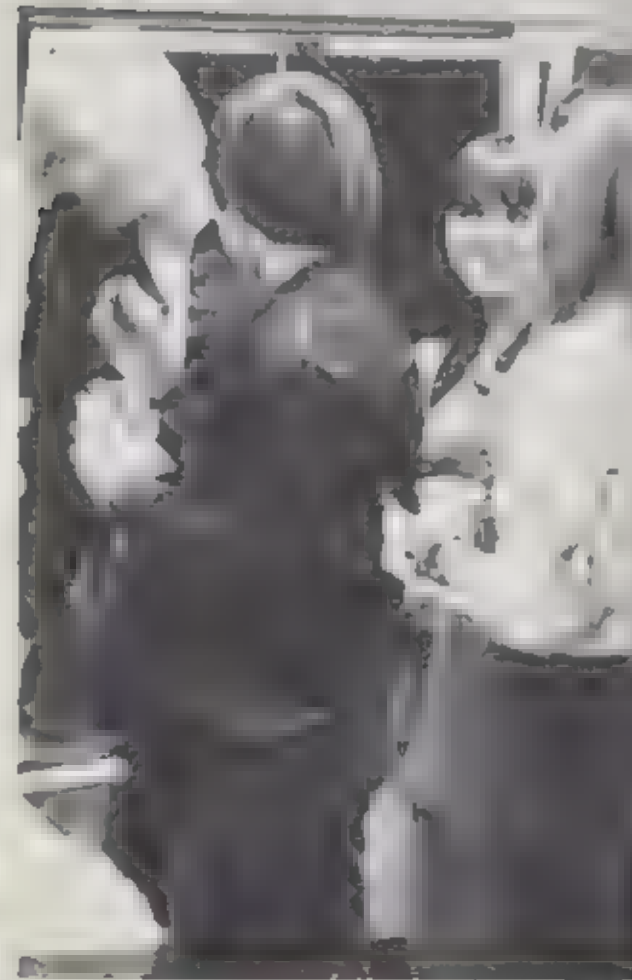

## Language Clubs

# Unite for a Fun and Entertaining International Night

The four language clubs got together for an "International Night." The evenings activities included a brief presentation by each club and talks by three area exchange students. Other activities for the year included the traditional German-Spanish Club soccer game. Spanish Club once again asserted its superiority over the German students in its second consecutive win. Highlights for the French club included going to see a play by Molière.

For the first time in the history of the school, the four language clubs had a joint meeting. The meeting was held in the gymnasium and was a great success. The students had a very good time and the teachers were very pleased with the results. The meeting was a great success and the students had a very good time. The teachers were very pleased with the results.

## Talented Students Achieve Honors

[illegible]

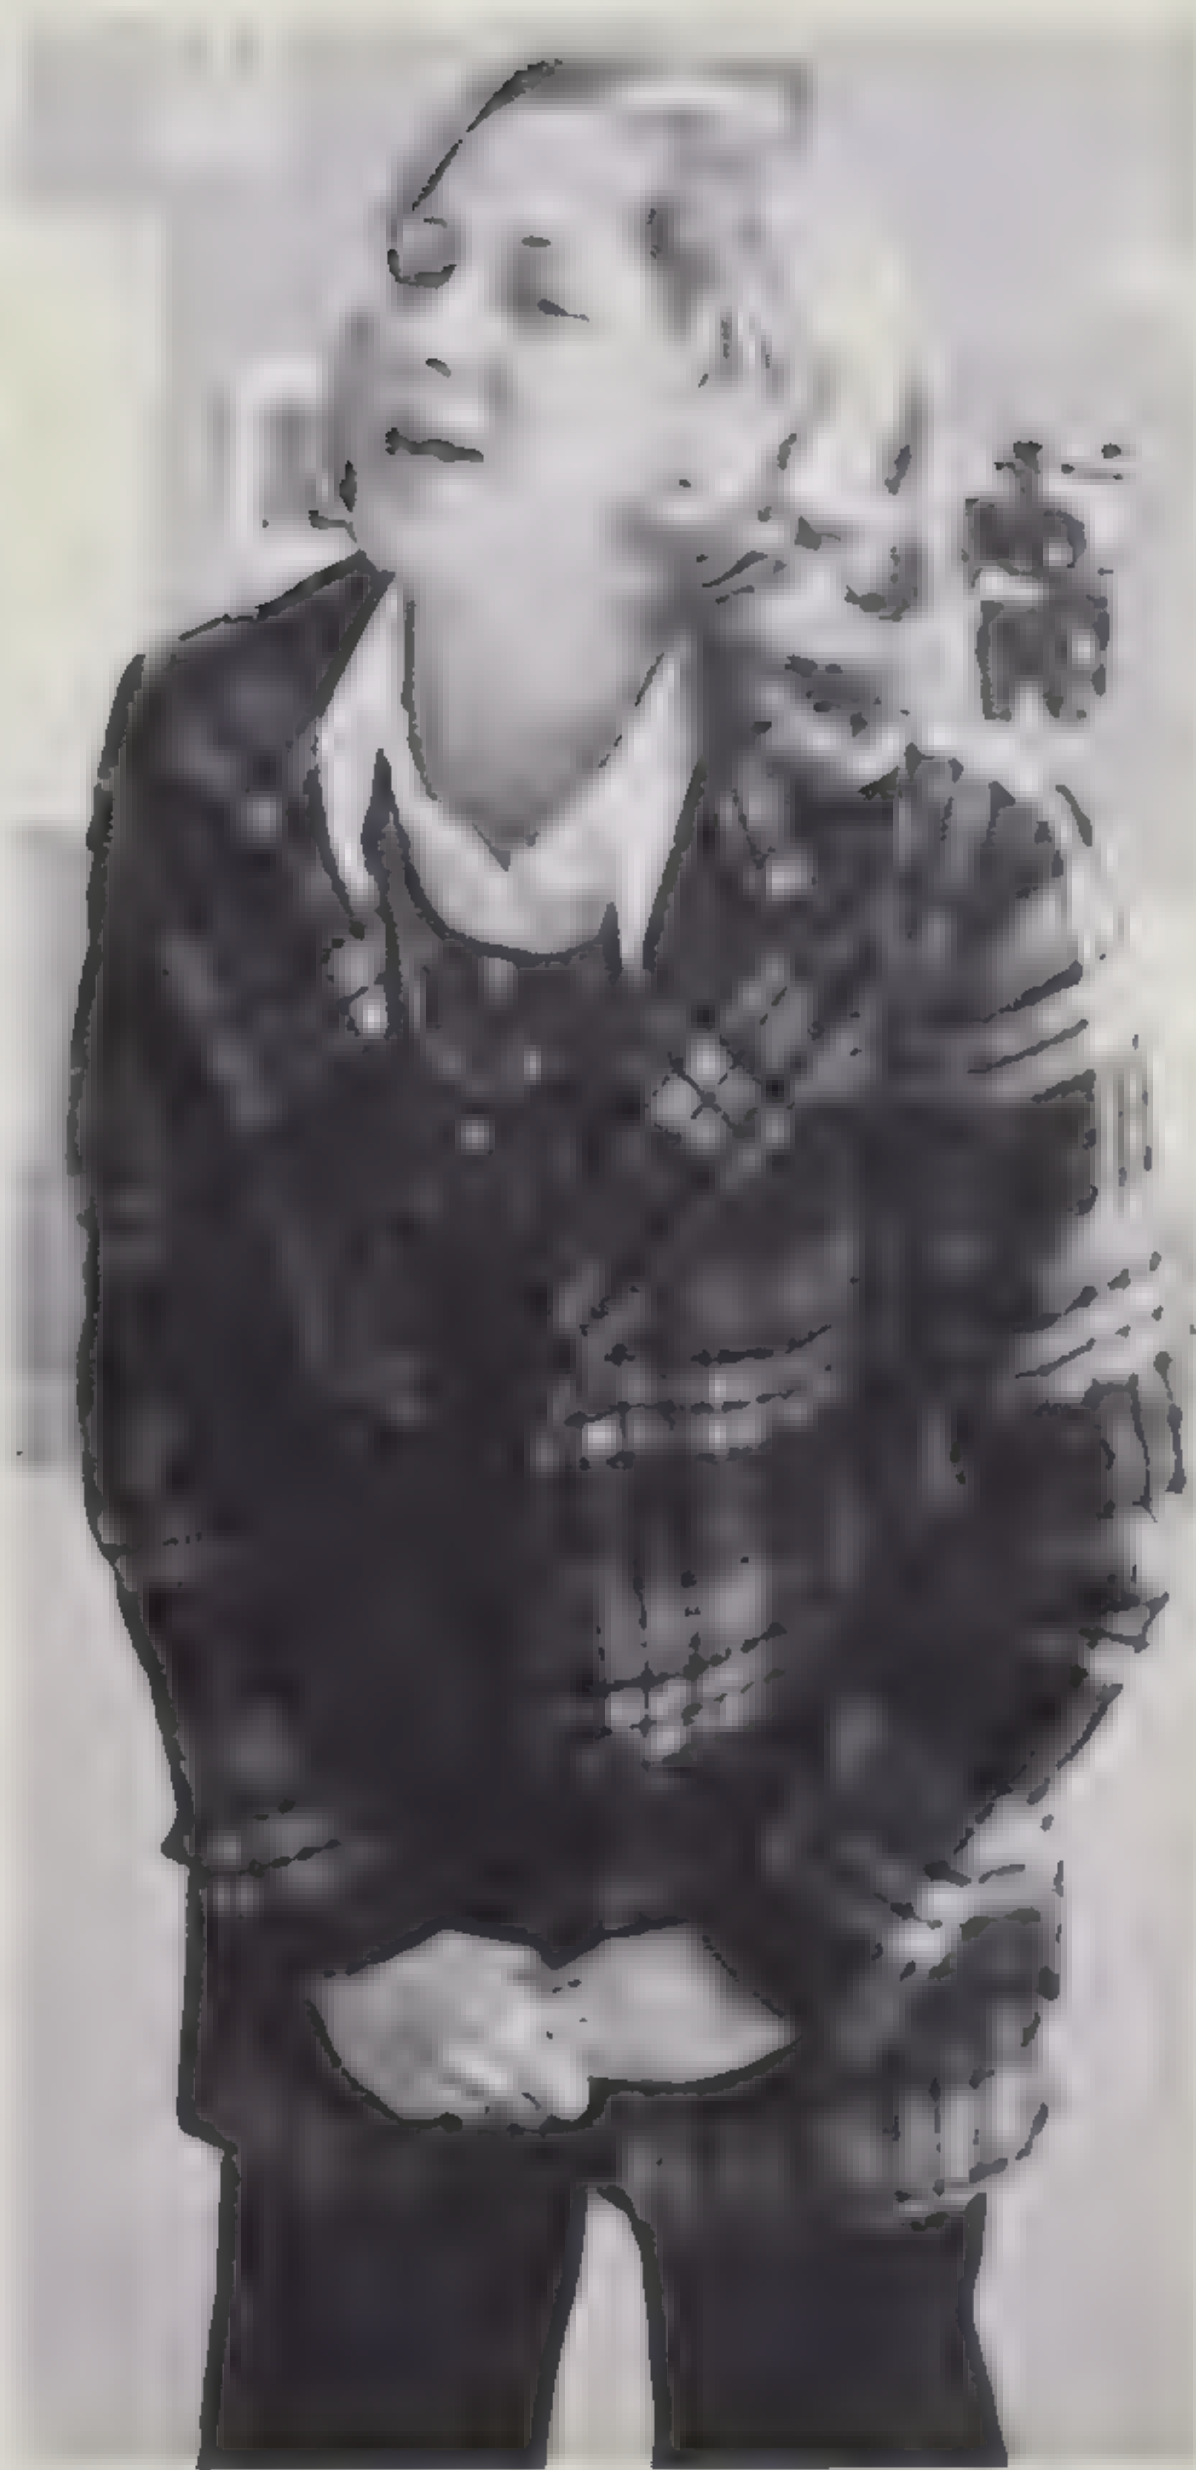

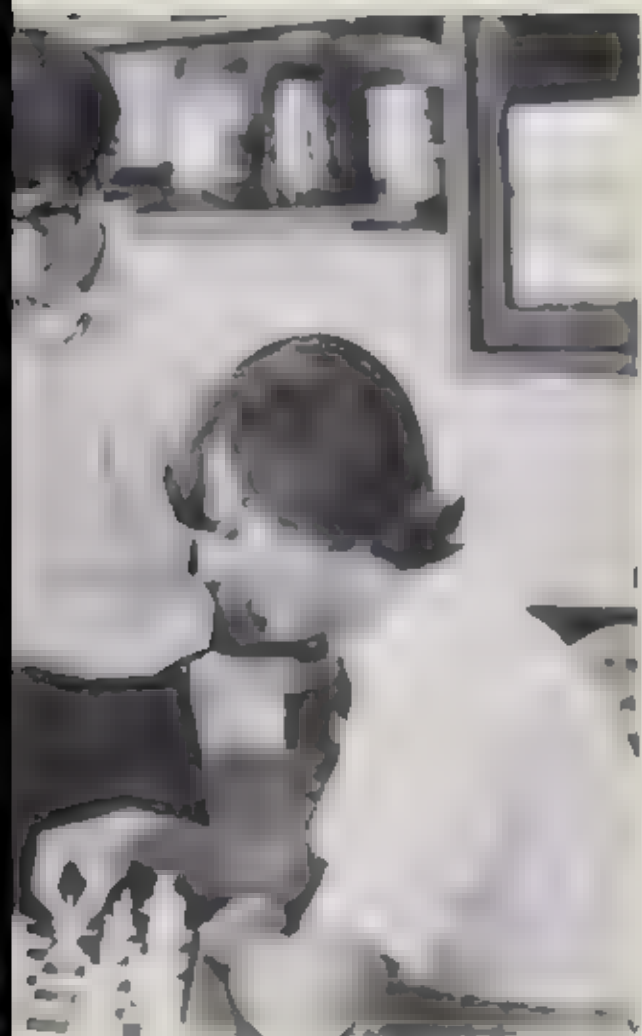

As a result of the investigation, the Special Agent in Charge, National Labor Relations Board, advised that the National Labor Relations Board is not aware of any information regarding the NFL player, and that the NFL player is not a member of the NFL player union.

Quill also said the report found that the federal related costs of the program are 10 percent of the total cost of the program, but the federal government is not currently covering the full cost.

## Scholarship Teams Place in State

Following the state competition, the Meridian scholarship team, representing Haverhill, placed first in the state in the Testing and Math divisions. The team, consisting of Haverhill students, won the state championship. Among the students who were awarded Haverhill Meridian scholarships were: Matt Dussan, Ron Smith, Steve Haverhill, and Steve Nadeau. Ron Smith and Dave Foster were among those who were awarded Haverhill Meridian scholarships in the State Division I in their respective fields.

The Haverhill scholarship team, consisting of Matt Dussan, Ron Smith, Steve Haverhill, and Steve Nadeau, won the state championship. Among the students who were awarded Haverhill Meridian scholarships were: Matt Dussan, Ron Smith, Steve Haverhill, and Steve Nadeau. Ron Smith and Dave Foster were among those who were awarded Haverhill Meridian scholarships in the State Division I in their respective fields.

# Intelligence Achieves Top Honors

Students of the Intelligence Department have achieved top honors in the annual National Mathematics Contest. The contest, held in the city of New York, was the largest of its kind in the country. The Intelligence Department students, under the guidance of their teachers, achieved a total score of 1,234 points, placing them first among all participating schools. The students who achieved individual honors were: John Doe, Jane Smith, and Robert Johnson. The Intelligence Department is proud of their achievement and looks forward to future success.

The Intelligence Department has a long history of academic excellence. In the past, students have won numerous awards for their achievements in mathematics, science, and literature. This year's contest was no exception, as the Intelligence Department students once again demonstrated their exceptional abilities. The department's success is a testament to the hard work and dedication of both the students and the faculty. We are proud to have such talented students and look forward to their continued success in the future.

The Intelligence Department is a leading school in the state, known for its high academic standards and excellent faculty. The department's success in the National Mathematics Contest is a reflection of the quality of its education. The students who participated in the contest were selected from a pool of the top students in the department. Their achievement is a source of pride for the entire school community. We are confident that these students will continue to excel in their studies and in their future careers.

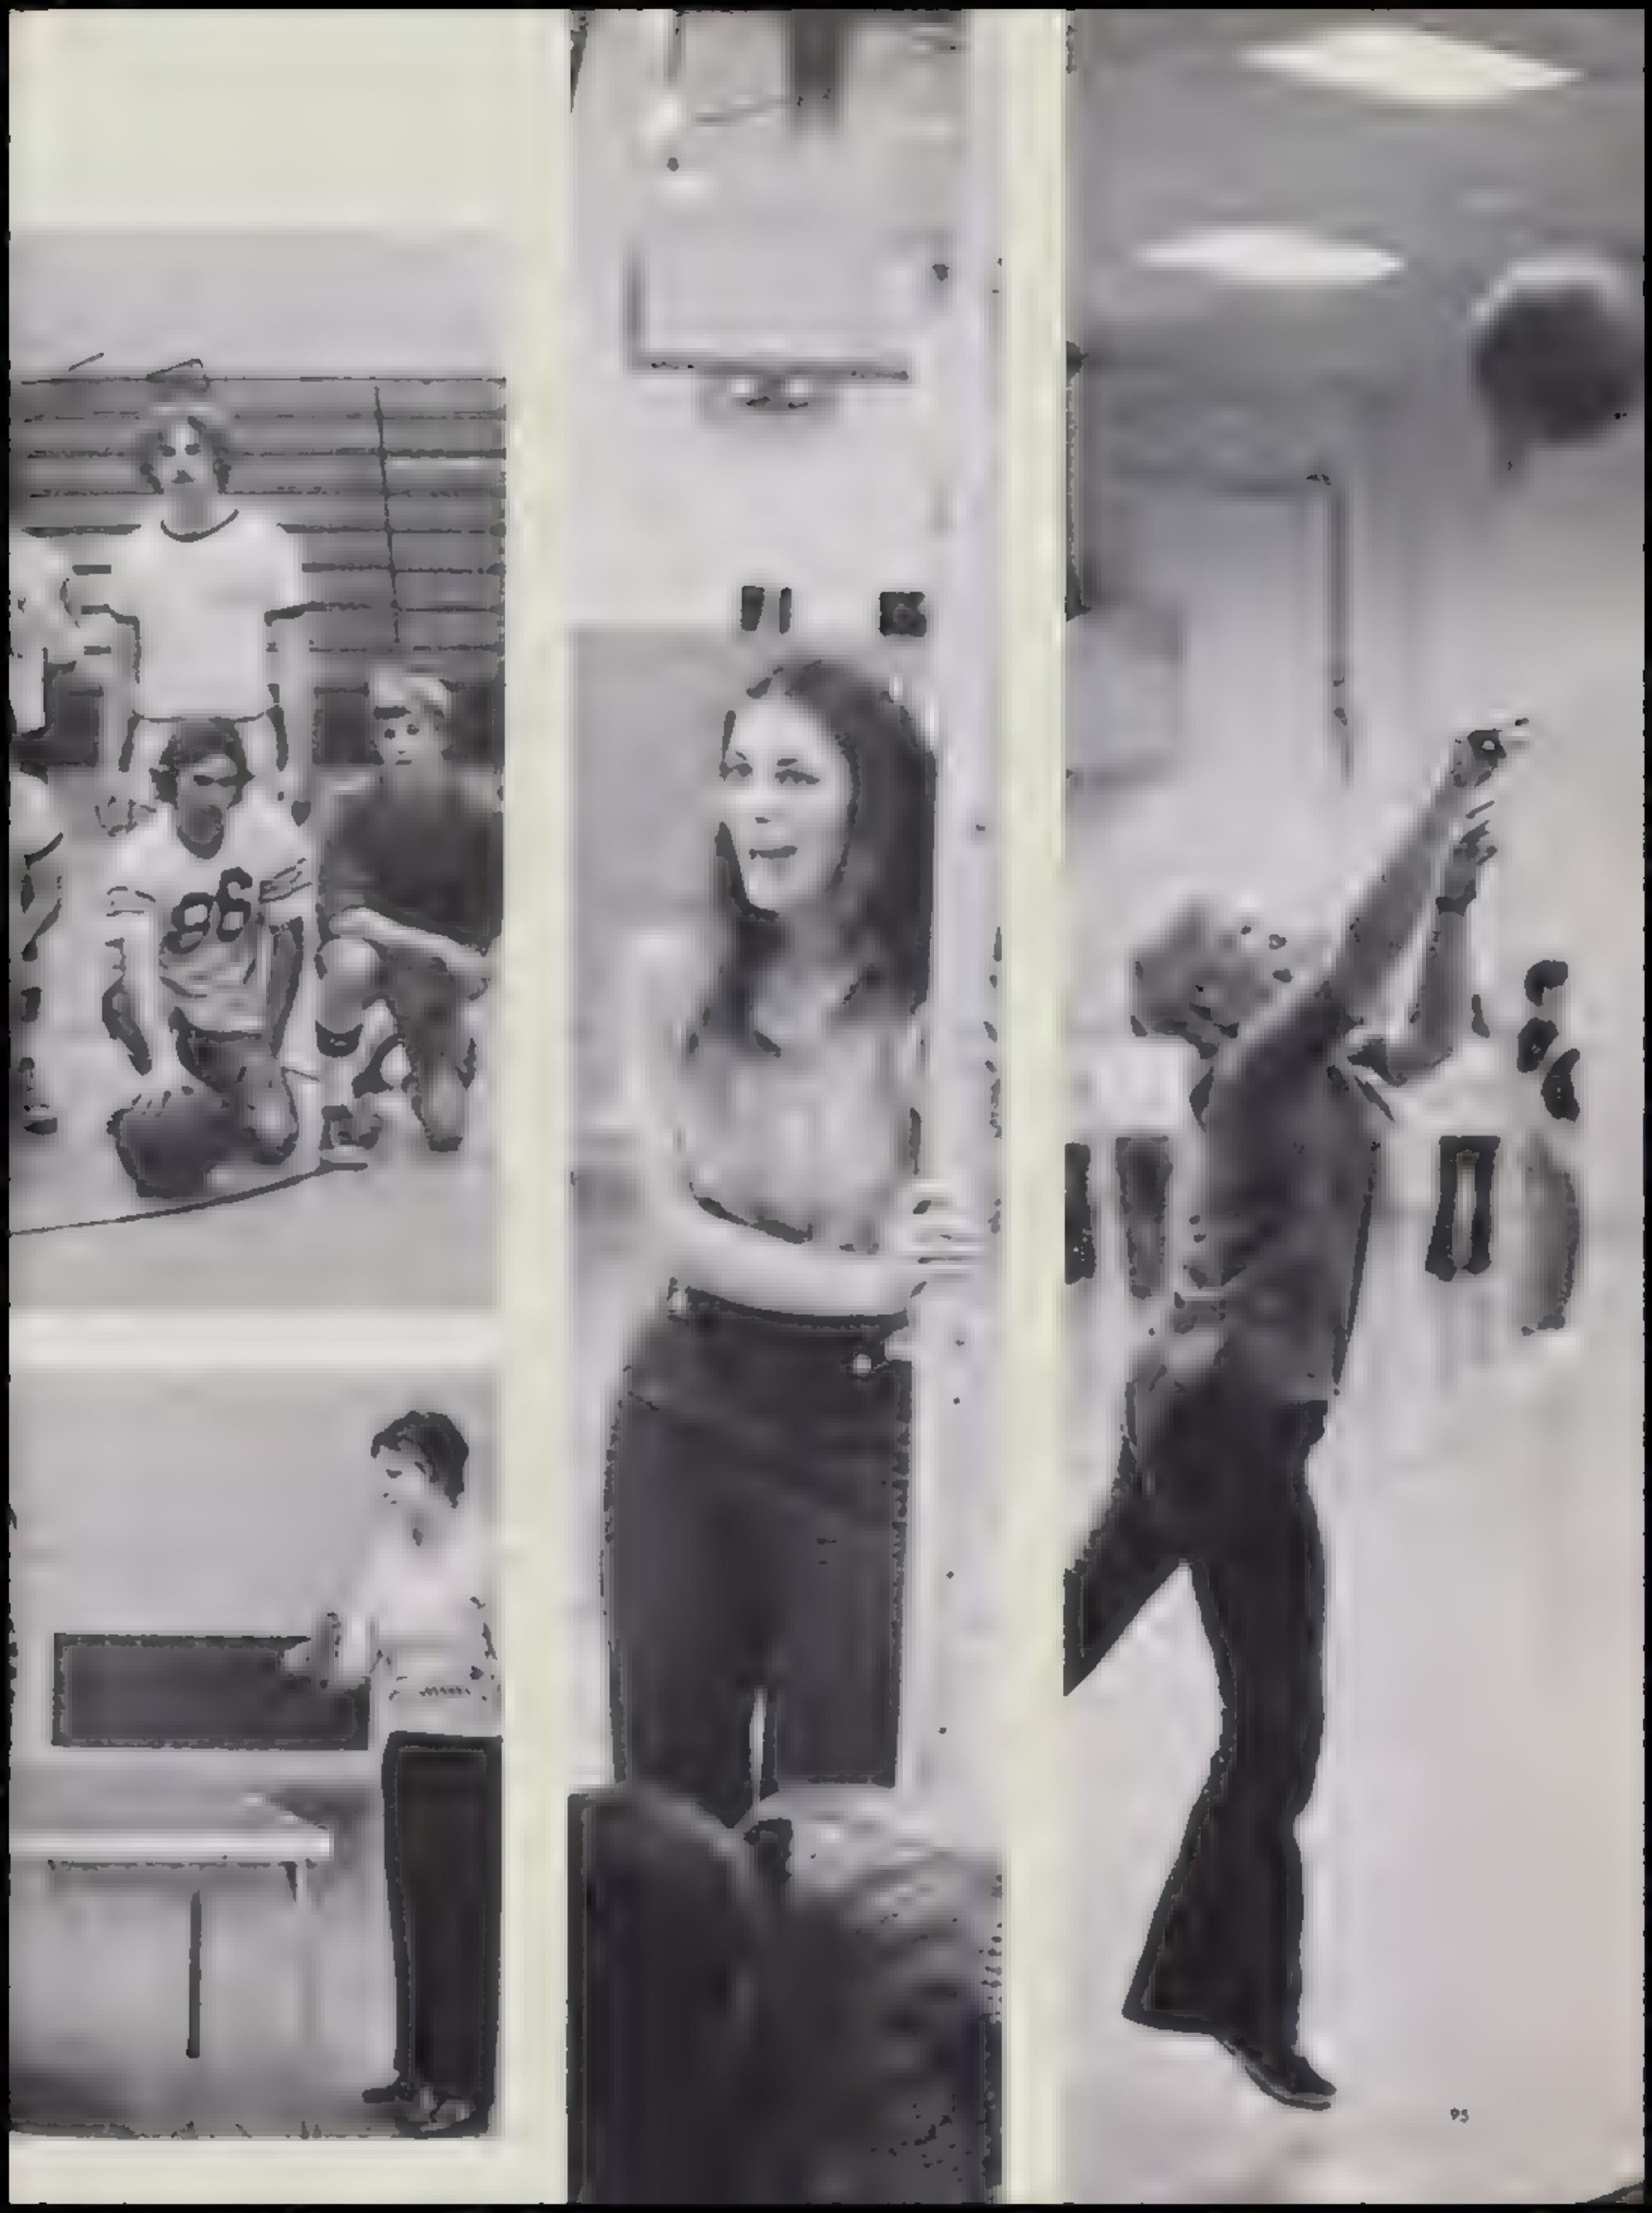

## Officers Make Clubs Enjoyable

Swimming, bowling, and going on a hayride were just a few of the things GAA did this year. The head officers were Debbie [redacted] and Jenny [redacted]. They put a lot of effort to ensure that the activities were interesting. The [redacted] monitor club also held its annual Father-Daughter Gym Night where the girls challenged their fathers in a rousing game of [redacted].

The FCA was the group that ran the Faculty Basketball Team for this year. FCA members dazzled the faculty with their playing skills and won the game. Jeff Logan served as president and organized the club's activities which included open-gym nights and Bible study sessions.

[illegible]

## Clubs Aid Others

Booster Club, under the leadership of co-presidents Bill Sumser and Sue Hertler, sponsored Hoover's first Winter Homecoming. It featured three events from each winter sport. The 250 member club also held a pizza party at Hoover Park and sponsored the first Teacher's Singing Contest.

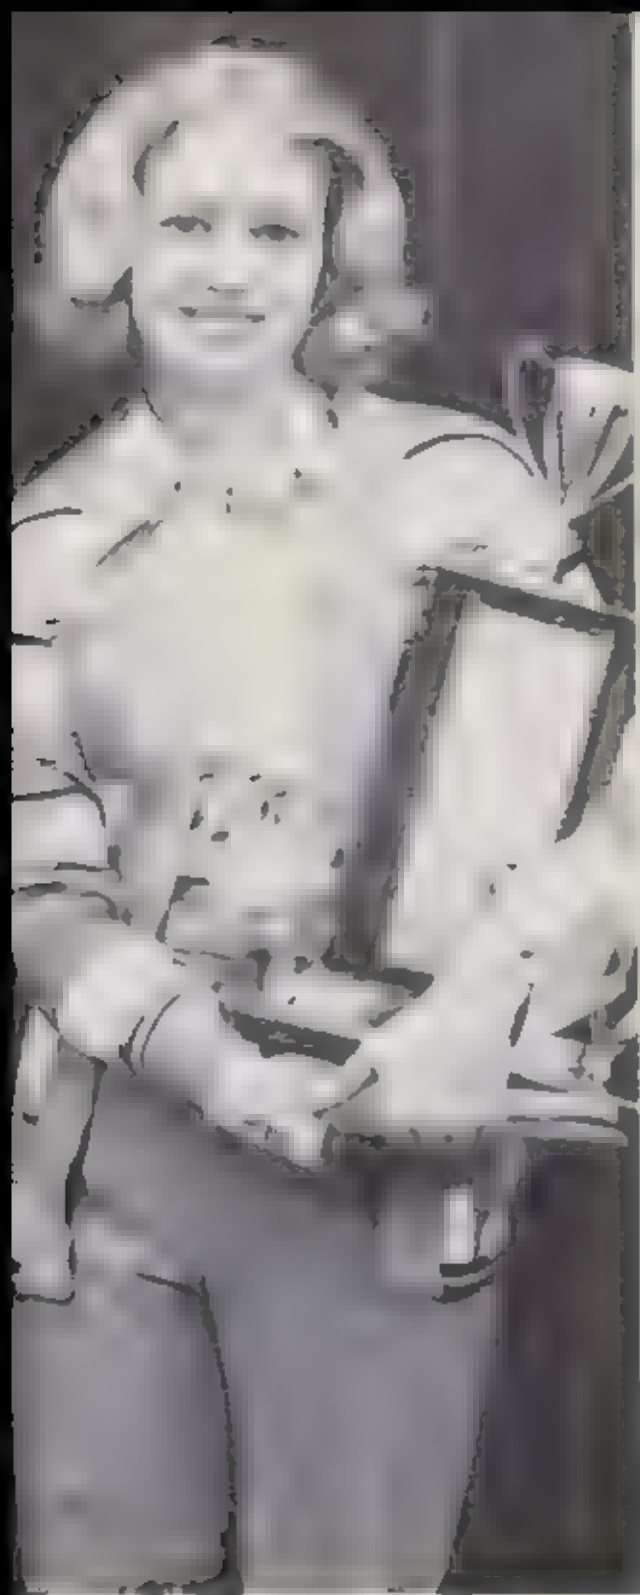

Student Council, with forty-one representatives, showed its concern for fellow student Paul Brown by selling Links for Life and holding a benefit dance. Together the projects raised \$440 for Paul's hospital costs. Student Council also instituted a suggestion box so students could voice their opinions.

Paul Brown, Hoover's first student to be hospitalized, was the focus of a benefit dance held at Hoover Park. The dance was sponsored by the Student Council. The photo shows Paul Brown, co-president Sue Hertler and Bill Sumser on a Homecoming float.

## Projects Vary Class Activities

A young man, who is a member of the National American Student Marketing Council, is shown in the foreground, holding a large, framed certificate or diploma. He is smiling and looking towards the camera. In the background, a poster with the word "LIFE" is visible.

The National American Student Marketing Council is a national organization that promotes the use of marketing in the classroom. It is a non-profit organization that is dedicated to providing students with the opportunity to learn about marketing in a practical way. The organization has a number of programs and activities that are designed to help students develop their marketing skills and knowledge.

The organization has a number of programs and activities that are designed to help students develop their marketing skills and knowledge. These include:
 

- The National American Student Marketing Council Competition: This is a national competition that is held annually. It is designed to help students develop their marketing skills and knowledge by competing against other students from across the country.
- The National American Student Marketing Council Conference: This is a national conference that is held annually. It is designed to help students learn about marketing in a practical way by attending workshops, seminars, and presentations.
- The National American Student Marketing Council Newsletter: This is a national newsletter that is published quarterly. It is designed to help students stay up-to-date on the latest news and information in the field of marketing.

1. The first step in the process of creating a new product is to identify a need or a problem that the product will solve. This is often done through market research and customer feedback.

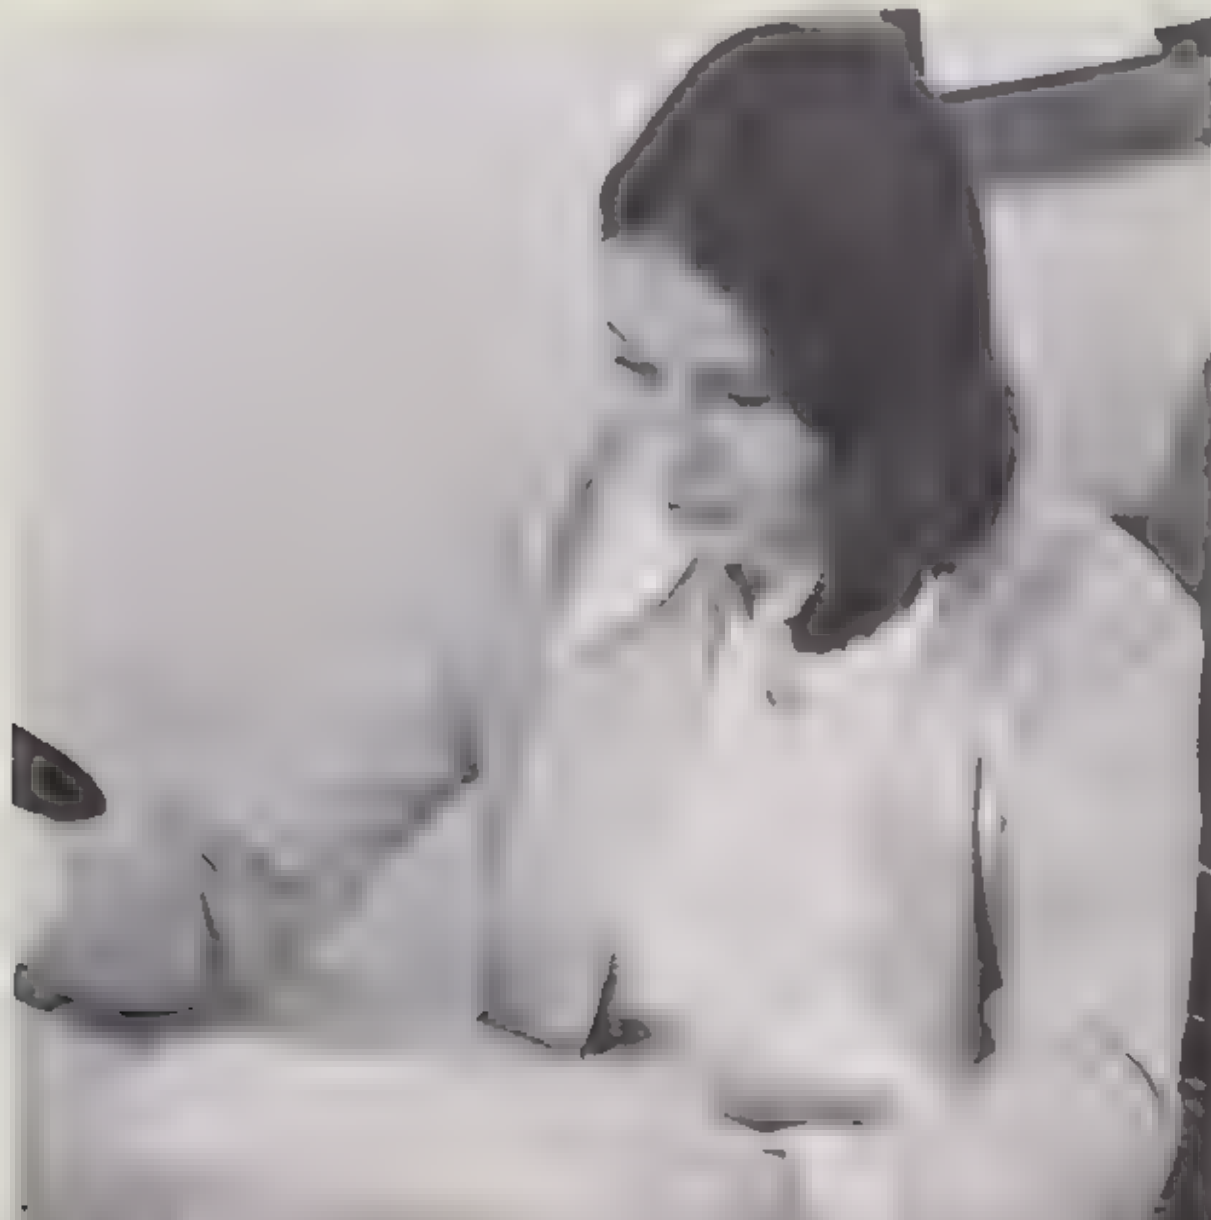

2. Once a need is identified, the next step is to develop a concept for the product. This involves brainstorming ideas and creating a rough sketch of the product.

3. The third step is to create a prototype of the product. This is a physical model of the product that is used to test the design and make any necessary adjustments.

4. After the prototype is created, the next step is to conduct a feasibility study. This involves evaluating the product's potential for success in the market, taking into account factors such as cost, production, and distribution.

5. If the feasibility study is positive, the next step is to develop a business plan for the product. This plan outlines the company's goals, strategies, and financial projections.

6. Finally, the product is launched into the market. This involves marketing the product to potential customers and monitoring its performance in the marketplace.

## Job Pays Off

To help the school get through its daily complications, numerous students contributed their time to be aides. They handled calls that came into the offices, ran errands, delivered notes to teachers and students, helped in the library and in the lab classes. Most of the aides gave five hours a week to this service. The students feel the work is rewarding, not only because they enjoy the work, but also because it has given them insights into the problems of running a high school and how diligently the entire staff works.

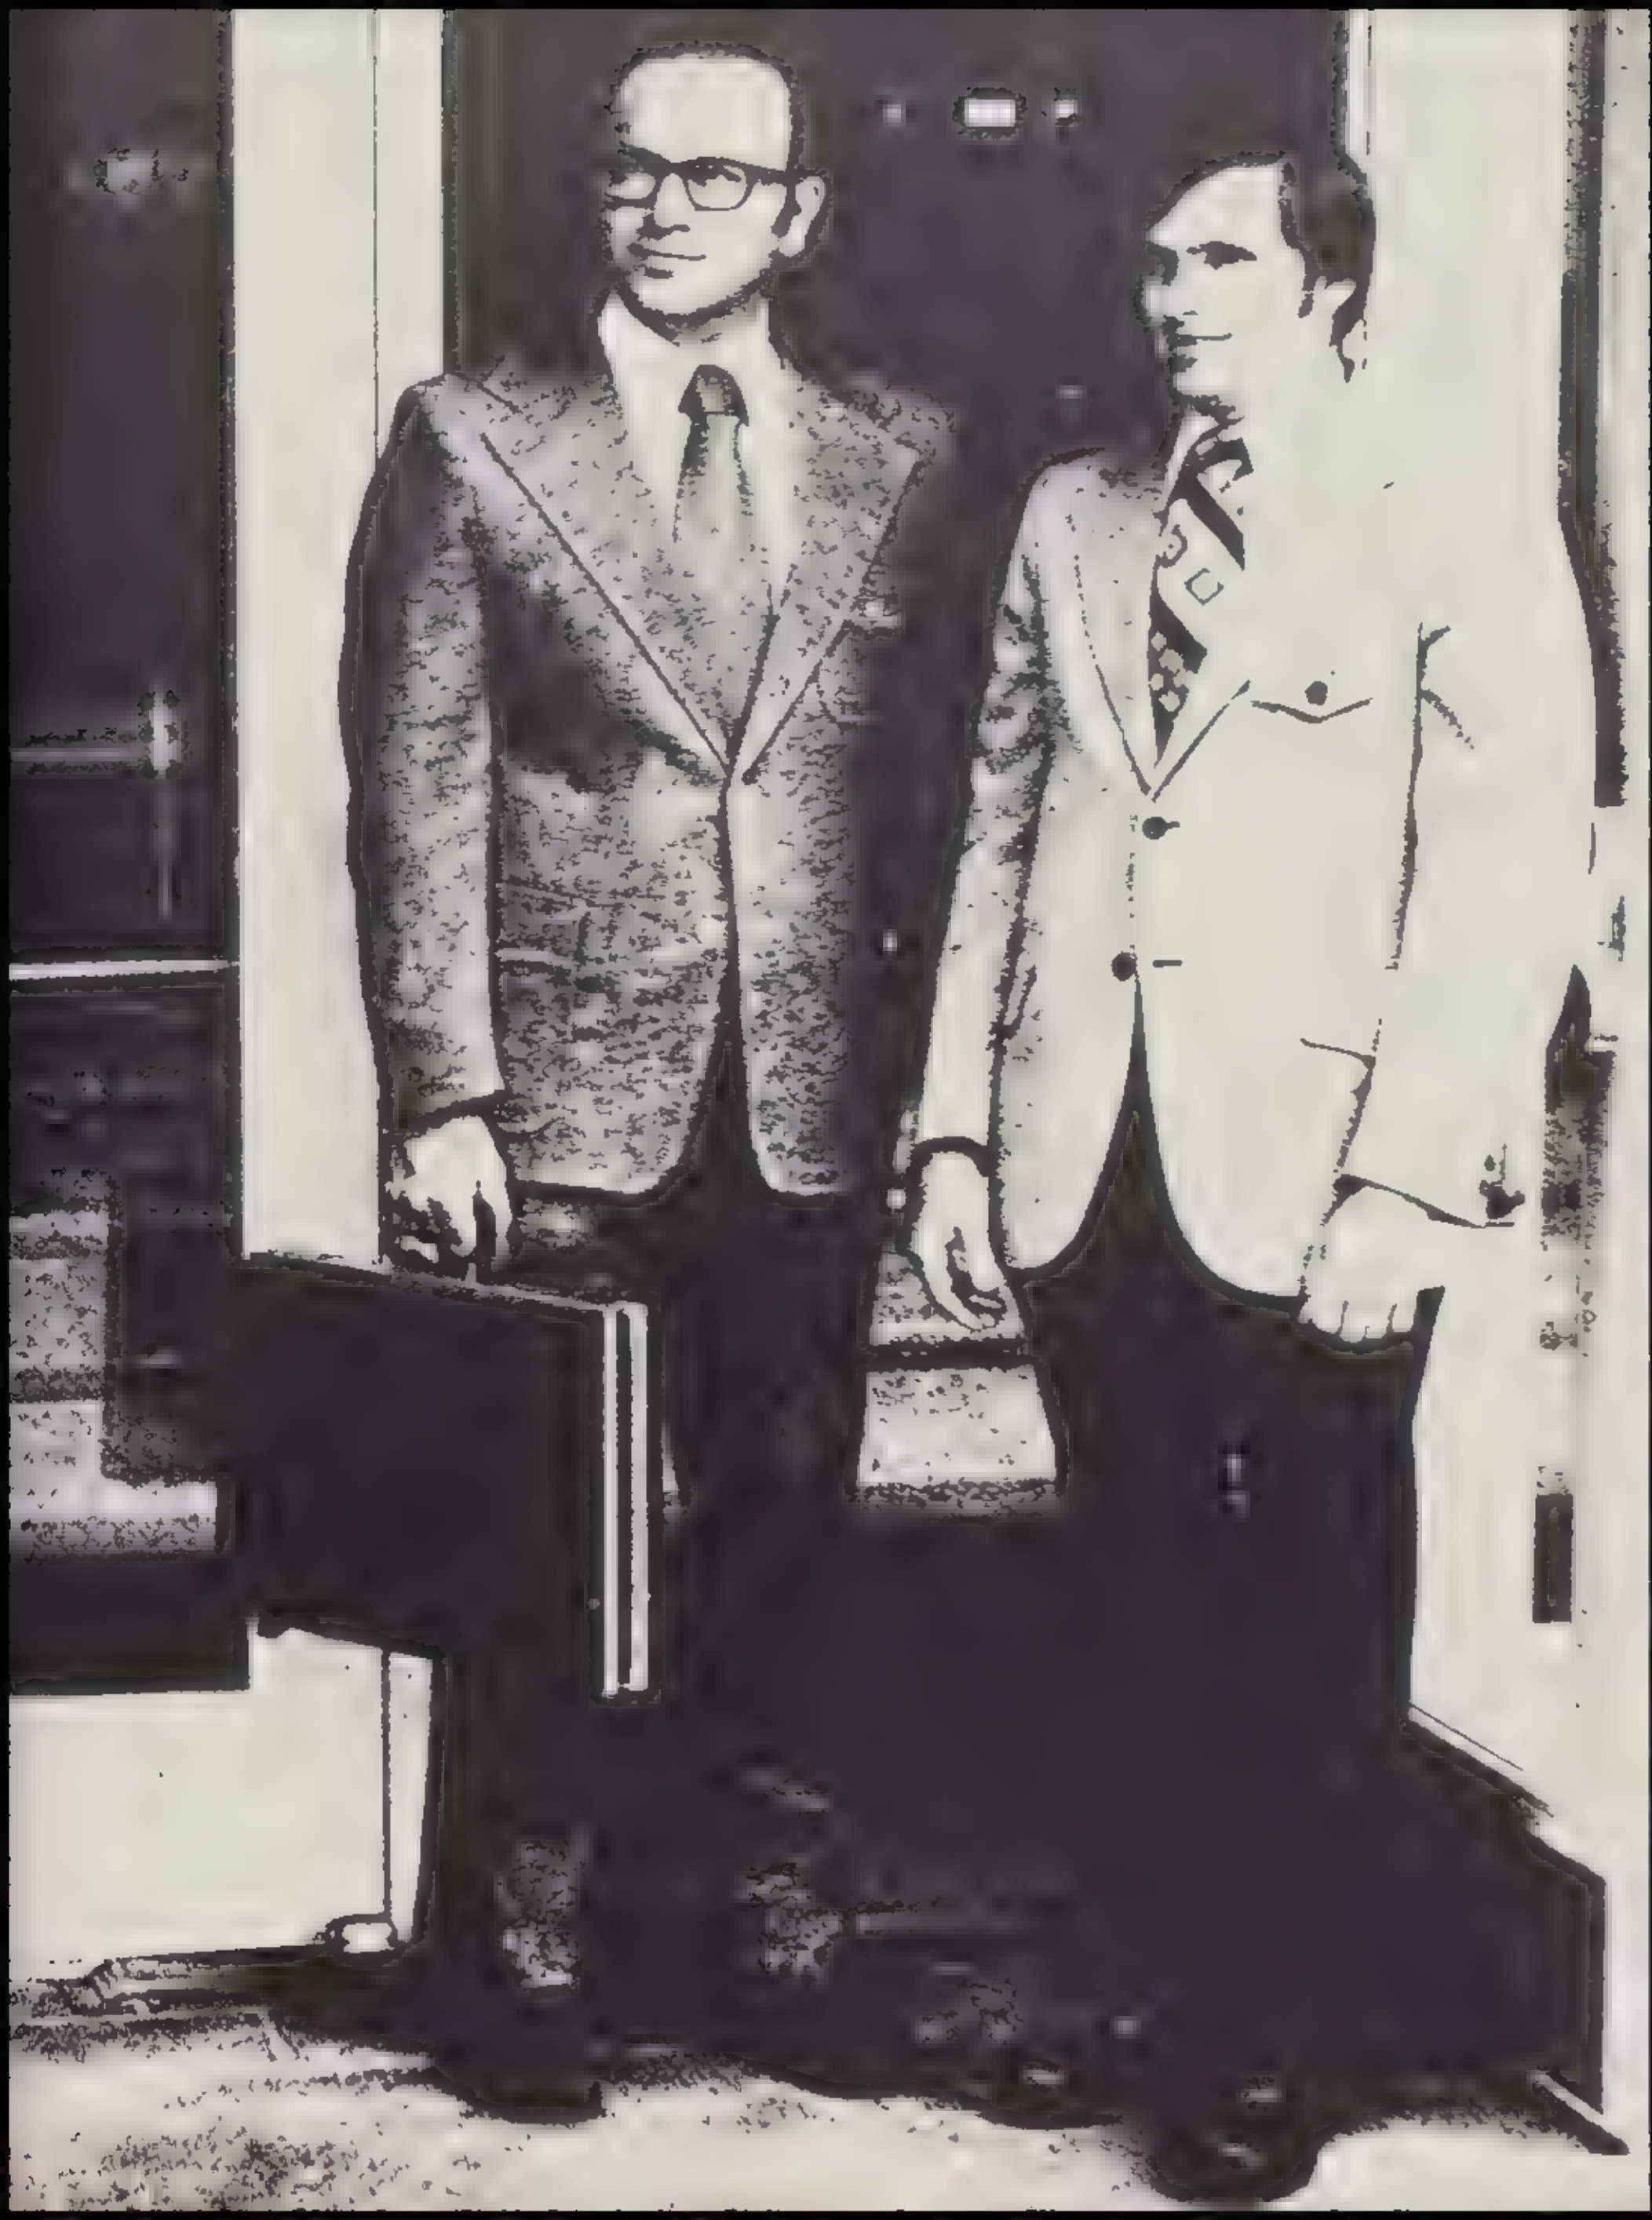

## Features Added

Helping to keep the students abreast of the many school activities the newspaper staff published monthly issues of the *Viking Views*. Pam Yoder, Editor-in-Chief; Patti Smith, Associate Editor; and Mr. Airhart, Advisor, directed the publication of this year's paper. There were a number of innovations this year, including the "Feature Faculty," which helped students to get to know the faculty better and the Senior Spotlight, which made the students more aware of the involvement and achievements of their classmates.

For Mr. Airhart, the Viking Views staff was a great help in keeping the students abreast of the many school activities. Pam Yoder, Editor-in-Chief; Patti Smith, Associate Editor; and Mr. Airhart, Advisor, directed the publication of this year's paper. ## Walker Leads Ohio Teachers

"For lots of years teachers weren't willing to say or do anything. They used to sit back and wait for the Board of Education will take care of us. Now teachers are coming out of their shells and they're taking an active part in school affairs. They're telling the boards that they know what's best for the young 'uns. Mr. Walker is living proof of this statement. In the past year he has represented about 6,000 teachers as president of the East Central Ohio Education Association. As a part of this position, he journeyed to Portland, Oregon, for the National Education Association convention which mainly concerned teachers' rights and welfare. Mr. Walker feels this worthwhile because teachers who have real security can devote every bit of their energy to teaching."

in 1962. He was named  
Outstanding Teacher in 1962.  
He was named Outstanding  
Teacher in 1962. He was  
named Outstanding Teacher  
in 1962. He was named  
Outstanding Teacher in 1962.

## Palmer Studies Culture Abroad

As a former graduate of Hoover, Miss Palmer returns to our school with a Bachelor of Arts degree from Walsh College and a Master of Arts degree from Miami University of Oxford, where she taught as a graduate assistant. She teaches French I and III, and English III. Her French students are especially interested because she has actually lived in France. She travelled to France with a work-study group from Ohio State University last summer to learn more about the French culture. They visited small villages, as well as big cities such as Paris. Living with French families in their own homes gave them a close-up view of an entirely different life-style. Miss Palmer also attended school in Quebec to become familiar with another aspect of the French language. She and her French students try to use French to converse in class as often as possible. For her recreation, Miss Palmer likes to include swimming and bowling.

Mr. Palmer, French teacher, speaking at a podium.

Miss Palmer, French teacher, sitting at a desk.

## Teacher Lives In Other States

Meeting people, traveling, and playing the organ are some of Mrs. McAdams' favorite activities. She has lived and taught in, and for, her native Iowa, in New York City, North Carolina, South Carolina, and presently Ohio. Living in New York City, she met people of many different backgrounds, and still communicates with some of her former students. Mrs. McAdams found the people in the South to be warm and friendly. Recently she and her husband Tony visited North Carolina, Iowa, and Canada. They also spent last Christmas in their camper in New Orleans during a tornado rainstorm. She also plays the organ which keeps her fingers in shape for her Typing I, Personal Typing and Junior Secretarial Class.

In addition to these, Mrs. McAdams sings, does land crafts, and is active in sports. She plays recreational volleyball at Kent State University, where her husband teaches. Mrs. McAdams also attended classes at Kent last summer.

# Hill Helps Many

Frances Hill, 40, of 1111 S. 1st St., Columbus, ends much of her time instructing people in the use of the piano. She is presently tutoring a young girl in English, has taught both her son and daughter to play the piano, and formerly taught neurologically handicapped children. Mrs. Hill is a member of the American Music Association and is devoted to the cause of the handicapped, which she has accompanied to Columbus, and on many camping trips. Despite getting lost in the woods, and sleeping in the rain, Mrs. Hill still enjoys camping.

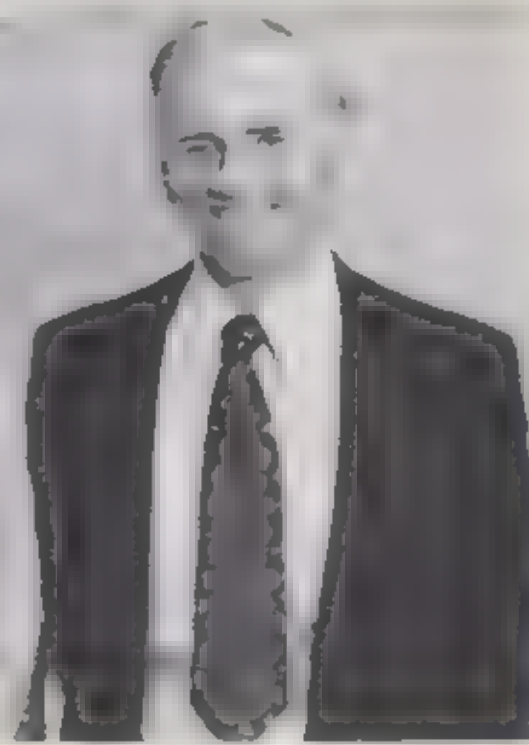

Below Rex Spaulding, Mrs. Rebecca Stuchell, Mrs. Lloyd Ream, H. Lawrence Marehand

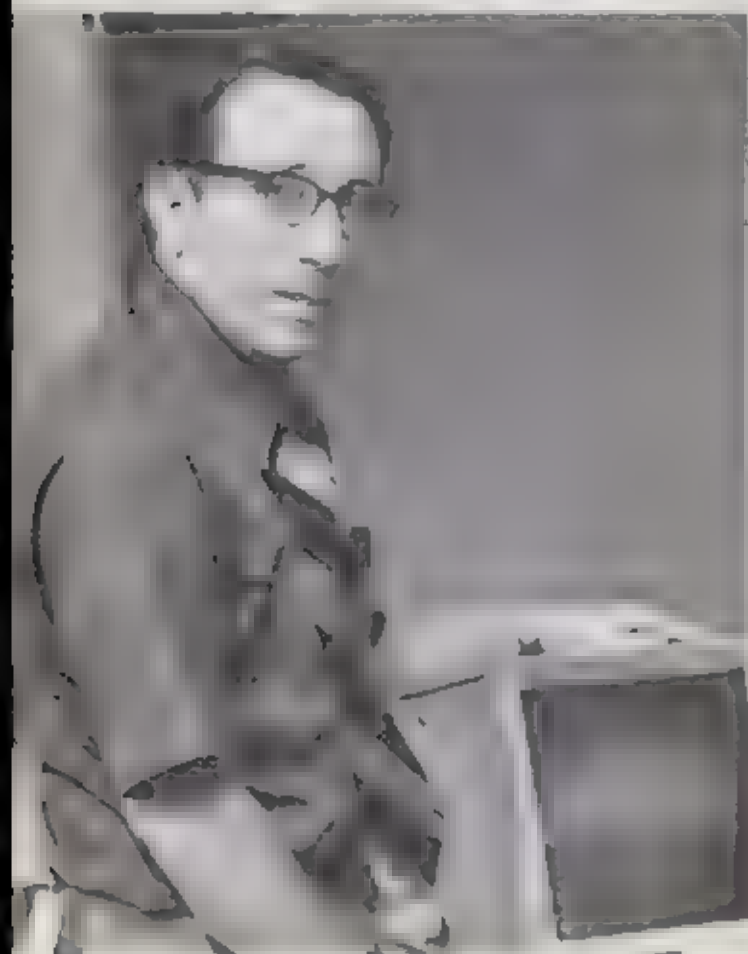

Top Frances A. Knapp, Gary A. Wochter, Nancy Kopka

## Bates Tells of Travels Aboard

Mr. J. Bates, a teacher of English, History, and Geography, is a member of the National Geographic Society and the American Sociological Association. He is fortunate to have traveled throughout the United States, Central America, Europe, and the Far East, including South Vietnam. His pupils enjoy hearing about his experiences when he was working for the Veterans Administration in military service during W.W. II in Italy as well as other parts of Europe. He earned a B.S. degree from the University of Nebraska and B.A. degree from the University of Maryland. His hobbies are playing golf and, of course, traveling.

## McCauley Enjoys Music and Travel

When he is not working with cars, Mr. McCauley enjoys music and traveling. At one time he played guitar in a rock group. Last summer Mr. McCauley journeyed to New York State in the Bronx at 4:30 A.M., he got lost. After he found his way, he continued on to New Jersey, Maryland, Washington D.C., and Pennsylvania. He also likes to spend Christmas each year in Florida.

## Weber Teaches Art in Evening

Mr. Weber

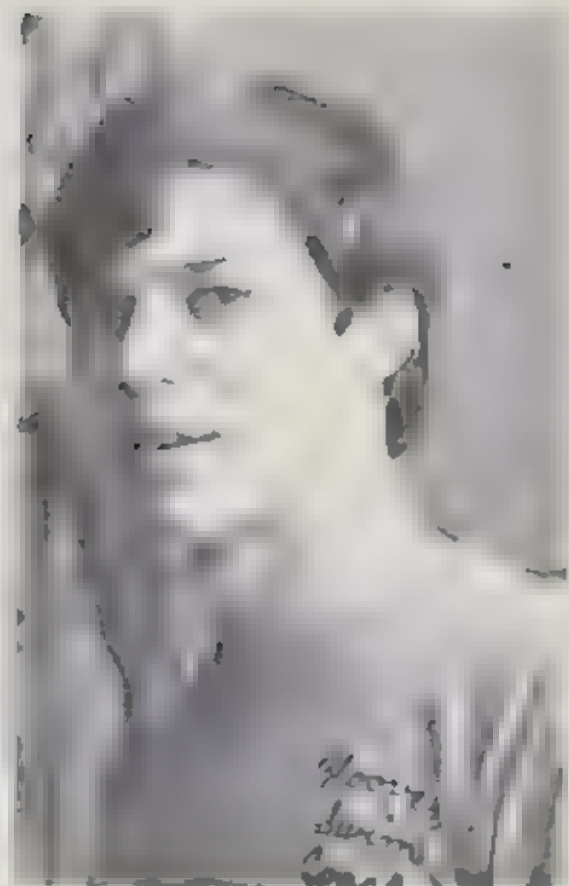

Elaine Weber

Mr. Weber teaches Art I and Art II classes. Mr. Weber conducts evening classes in painting to anyone interested in art from the hobbyist to college level. After being influenced by area classes, and due to the increasing interest, he and his wife Elaine set up their own courses. Their students, ranging in age from twelve to 73, meet once a week at Bob-O-Link Golf Clubhouse to improve their skills with oils and acrylics. The classes also stress basic art principles of proportion, color theory, design, and sketches. The Webers received their degrees in art education from Kent State University.

Elaine and Martha Lowe

## Advisor Travels to Hawaii, Europe

When she is not busy working with the cheerleaders, the Athletic Association, or coaching the girl's volleyball team, Miss Lowe enjoys the theatre and traveling. In the past, she has actively contributed to costuming and has worked on wardrobes at the Players Guild Theatre in Canton.

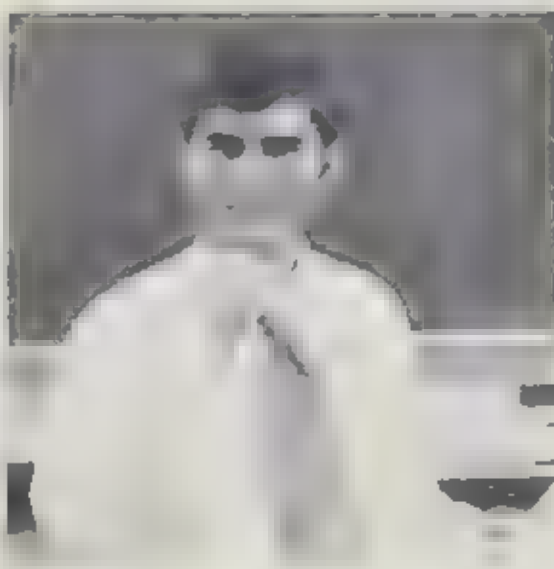

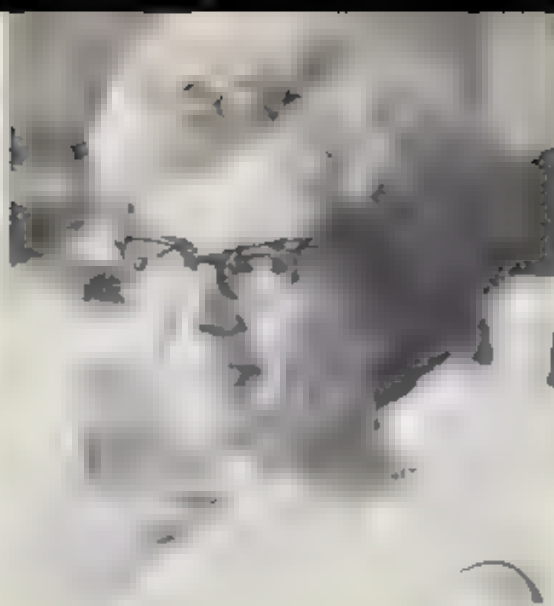

Miss Lowe has traveled to Europe, Hawaii, Florida, and Washington, D.C. One of her most enjoyable visits was to a dude ranch in New York. As a result, Miss Lowe plans on returning to New York this year, and journeying farther west to Las Vegas.

Mr. Whitman  
Principal  
North Canton School System

Mrs. Whitman  
Teacher  
North Canton School System

## Whitman Obtains Honorary Medal

This is Mrs. Whitman's first year at Hoover. She teaches Plane Geometry and Algebra II. She received her B.S. degree from Kent State University where she was awarded the President's Medal as Outstanding Woman Graduate. Her hobbies include reading, sports, music, and the theatre.

Mr. Boyer is teaching classes in the Fundamentals of Algebra II and Applied Mathematics. Mr. Boyer has a B.S. degree in Education from Ohio State University and has been in the North Canton School System for the past twelve and one-half years. He also holds the post of Recreation Director for the City of North Canton. His duties consist of supervising the operation of the municipal swimming pool and the various city parks. His immediate plans include installation of more tennis courts in the

## Smith Achieves in "Who's Who"

Miss Smith, who leads our Guidance Department this year, is a member of "Who's Who in American Women in Education." Miss Smith has also been a recipient of the Meritorious Award from Cleveland Women's Physical Education Association and served on the Governor's Committee on Status of Women. On this committee, she and others discussed the reform of employment practices for women.

In October, Miss Smith served as an official in the Ohio State Collegiate Field Hockey Tournament at Baldwin-Wallace College. She had three works published, "Philosophy of Officiating," "Softball Rule Digest," and "Steps in College Planning." Her other activities include reading and sports.

[illegible]

A black and white photograph of a group of people outdoors. In the center, a woman wearing a dark, long-sleeved dress is seated on a small stool or chair, holding a small object in her hands. Behind her, a group of people are standing. To the left, a man in a light-colored shirt and dark trousers is partially visible. Next to him, a woman in a striped shirt is standing. Behind the seated woman, a man in a striped shirt and dark trousers is standing. To the right, a woman in a dark dress is standing. The background shows a fence and some foliage. The image is somewhat blurry and has a vintage feel.

Portrait of a student, likely a member of the school organization, shown in a formal pose.

# Juniors Get Acquainted with Video Tape Equipment

The Junior class  
 was given a  
 demonstration of  
 the video tape  
 equipment by  
 Mr. [Name]  
 and Mrs. [Name]  
 on [Date]  
 at [Location]  
 The students  
 were very  
 interested in  
 the new  
 equipment  
 and were  
 given a  
 chance to  
 operate the  
 equipment  
 themselves.  
 The students  
 were very  
 cooperative  
 and the  
 demonstration  
 was a  
 success.

## Some of Our Art Students Pose For Their Class

The art students of the North Central Middle School are posing for their class. The students are shown in a grid of 28 portraits, arranged in four rows of seven. The students are posed in various ways, some looking at the camera, some looking away, and some with their hands on their faces.

# Many Sophomores Enjoy Singing In Mixed Choir

STUDENT BODY CHAIRMAN, MARY  
K. T. TAYLOR, PRESIDENT OF THE  
SCHOOL BOARD, MRS. J. H. TAYLOR

1. The first part of the paper is devoted to the study of the asymptotic behavior of the solutions of the system (1) as  $t \rightarrow \infty$ . It is shown that the solutions of the system (1) are bounded and tend to zero as  $t \rightarrow \infty$ .

## WE KNOW WHERE WE'RE GOING

At a time when most cars are designed with a definite destination in mind, the new Lincoln Continental is designed to go wherever you want to go.

It's a car that can take you anywhere you may need it—under the stars and stripes, or in the night. Its distinctive appearance could be said to represent the more than a great way to get there.

Hope  
NEXT RIGHT

## BECAUSE OF WHERE WE'VE BEEN

More than 65 years ago, we began our journey as the standard for our industry. Today, we continue to lead the way in product and leadership.

Once we were there, we were determined to stay — and we have, thanks in large part to the skill and dedication of Hoover Company men and women here and around the world.

# Advertising Information

The following information is for the purpose of providing a general overview of the advertising opportunities available in this publication. For more detailed information, please contact the Advertising Manager at the address listed below.

**Advertising Manager:**  
 Mr. J. W. Smith  
 123 Main Street  
 New York, N.Y. 10001  
 Phone: (212) 555-1234

**Advertising Rates:**  
 The advertising rates for this publication are as follows:

Position	Rate per Line (per week)
Full Page (10 lines)	\$1,000.00
Half Page (5 lines)	\$500.00
Quarter Page (3 lines)	\$300.00
Single Column (1 line)	\$100.00

The above rates are for a standard 30-day period. For longer or shorter terms, please contact the Advertising Manager for a quote.

**Deadweight:**  
 The deadweight of an advertisement is the cost of the space occupied by the advertisement, regardless of whether it is read or not.

**Classification:**  
 The classification of an advertisement is determined by the nature of the product or service being advertised.

**Display:**  
 A display advertisement is one that is designed to attract attention and is typically larger than a standard advertisement.

**Insert:**  
 An insert is a separate page or pages that are included in a publication, often containing additional information or a special offer.

**Special Advertising Section:**  
 A special advertising section is a dedicated area within a publication, often featuring advertisements for a specific industry or product.

**Terms:**  
 The terms of an advertisement are the conditions under which it is placed, including the duration, location, and any special requirements.

**Time:**  
 The time of an advertisement is the period during which it is displayed, typically measured in weeks or months.

**Where:**  
 The where of an advertisement is the location within the publication where it is placed, such as the front page or a specific section.

**Who:**  
 The who of an advertisement is the person or company responsible for its placement, typically the advertiser or the advertising agency.

**Why:**  
 The why of an advertisement is the reason for its placement, such as to promote a new product or service, to increase sales, or to build brand awareness.

The following information is for the purpose of providing a general overview of the advertising opportunities available in this publication. For more detailed information, please contact the Advertising Manager at the address listed below.

**Advertising Manager:**  
 Mr. J. W. Smith

PARKER BROTHERS INC

MASS. U.S.A.

All our experiences have been  
pared to stages of learning and  
becoming. We have explored  
developed and molded ourselves  
into the type of persons that fit  
our goals in society. Our shaping  
has largely been accomplished  
through formal learning  
conditions. As we say goodbye to  
the year of 1974, we must realize  
that what we have mastered is  
only the dawning of what remains  
for us to learn.

*Learning is becoming.  
Though all that you learn will grow  
old,  
That which you become will live and  
be expanded upon.*

## Hoover Alma Mater

Our strong love can never be broke  
For we are Hoover High  
For strong love we are unspoken  
Strong love friendship

Alma Mater Alma Mater  
Deep green in our heart  
Strong love in our hearts when  
We from life start part

High School life at best is passing  
Living so fast by  
There is no pride in words and deed  
Our love for Hoover High

## Mabel Studer 1907-1973

My dear Mr. Hoover, I am writing you this letter to tell you how much I love you and how much I love Hoover High. I am writing you this letter to tell you how much I love you and how much I love Hoover High. I am writing you this letter to tell you how much I love you and how much I love Hoover High.

I am writing you this letter to tell you how much I love you and how much I love Hoover High. I am writing you this letter to tell you how much I love you and how much I love Hoover High.

My dear Mr. Hoover, I am writing you this letter to tell you how much I love you and how much I love Hoover High. I am writing you this letter to tell you how much I love you and how much I love Hoover High.

I am writing you this letter to tell you how much I love you and how much I love Hoover High. I am writing you this letter to tell you how much I love you and how much I love Hoover High. I am writing you this letter to tell you how much I love you and how much I love Hoover High.

I am writing you this letter to tell you how much I love you and how much I love Hoover High. I am writing you this letter to tell you how much I love you and how much I love Hoover High. I am writing you this letter to tell you how much I love you and how much I love Hoover High.

I am writing you this letter to tell you how much I love you and how much I love Hoover High. I am writing you this letter to tell you how much I love you and how much I love Hoover High. I am writing you this letter to tell you how much I love you and how much I love Hoover High.

I am writing you this letter to tell you how much I love you and how much I love Hoover High. I am writing you this letter to tell you how much I love you and how much I love Hoover High.
